The mailing address of the corporate offices of the Company is 1835 Dueber Avenue, S.W., Canton, Ohio 44706-2798. The approximate date on which this Proxy Statement and form of proxy will be first sent or given to shareholders is March 13, 2006.

The Board of Directors is not aware that matters other than those specified in the foregoing Notice will be brought before the meeting for action. However, if any such matters should be brought before the meeting, the persons appointed as proxies may vote or act upon such matters according to their judgment.

ELECTION OF DIRECTORS

The Company presently has twelve Directors who, pursuant to the Amended Regulations of the Company, are divided into three classes with five Directors in Class I, four Directors in Class II and three Directors in Class III. From the 2005 Annual Meeting of Shareholders until August 14, 2005, there were thirteen Directors, with five Directors in Class I, four Directors in Class II and four Directors in Class III. At the Board of Directors' meeting held on August 4, 2005, the Board passed a resolution decreasing the size of the Board from thirteen to twelve Directors, effective August 15, 2005, and the reduction was apportioned to Class III. This reduction was due to the resignation from the Board of W. R. Timken, Jr., non-executive Chairman of the Board, who accepted an appointment to the position of U.S. Ambassador to Germany. The Board of Directors elected W. J. Timken, Jr., Chairman – Board of Directors, at the same meeting, effective August 15, 2005. At the 2006 Annual Meeting of Shareholders, three Directors will be elected to serve in Class III for a three-year term to expire at the 2009 Annual Meeting of Shareholders. Under Ohio law and the Company's Amended Regulations, candidates for Director receiving the greatest number of votes will be elected. Abstentions and "broker non-votes" (where a broker, other record holder, or nominee indicates on a proxy card that it does not have authority to vote certain shares on a particular matter) will not be counted in the election of Directors and will not have any effect on the result of the vote.

If any nominee becomes unable, for any reason, to serve as a Director, or should a vacancy occur before the election (which events are not anticipated), the Directors then in office may substitute another person as a nominee or may reduce the number of nominees as they shall deem advisable.

ITEM NO. 1 ELECTION OF CLASS III DIRECTORS

The Board of Directors, by resolution at its February 7, 2006, meeting, nominated the three individuals set forth below to be elected Directors in Class III at the 2006 Annual Meeting of Shareholders to serve for a term of three years expiring at the Annual Meeting of Shareholders in 2009 (or until their respective successors are elected and qualified). All of the nominees have been previously elected as a Director by the shareholders. Each of the nominees listed below has consented to serve as a Director if elected.

Unless otherwise indicated on any proxy, the persons named as proxies on the enclosed proxy form intend to vote the shares covered by such proxy form in favor of the nominees named below. The Board of Directors unanimously recommends a vote FOR the election of the nominees named below.

The Board of Directors has adopted the independence standards of the New York Stock Exchange listing requirements for determining the independence of Directors. Those standards are annexed to this Proxy Statement as Appendix A. The Board has determined that the following continuing Directors or Director nominees have no material relationship with the Company and meet those independence standards: Phillip R. Cox, Jerry J. Jasinowski, John A. Luke, Jr., Robert W. Mahoney, Joseph W. Ralston, Frank C. Sullivan, John M. Timken, Jr., Joseph F. Toot, Jr., and Jacqueline F. Woods.

The Board of Directors has an Audit Committee, a Compensation Committee, and a Nominating and Corporate Governance Committee. During 2005, there were seven meetings of the Board of Directors, ten meetings of its Audit Committee, four meetings of its Compensation Committee, and four meetings of its Nominating and Corporate Governance Committee. All nominees for Director and all continuing Directors attended 75 percent or more of the meetings of the Board and its Committees on which they served. All members of the Board of Directors are expected to attend the Annual Meeting of Shareholders. All thirteen Board members attended last year's Annual Meeting of Shareholders. At each regularly scheduled meeting of the Board of Directors, the independent directors also meet separately in an executive session. The Chairpersons of the standing committees preside over those sessions on a rotating basis.

DIRECTOR COMPENSATION

Each Nonemployee Director who served in 2005 was paid at the annual rate of \$45,000 for services as a Director. Each Nonemployee Director serving at the time of the Annual Meeting of Shareholders on April 20, 2005, received a grant of 1,000 shares of Common Stock and a grant of nonqualified stock options for 3,000 shares of Common Stock under The Timken Company Long-Term Incentive Plan, as Amended and Restated (the "Long-Term Incentive Plan"), following the meeting. Upon a Director's initial election to the Board, each new Nonemployee Director receives a grant of 2,000 restricted shares of Common Stock under the Long-Term Incentive Plan. As former employees of the Company, Ward J. Timken and Joseph F. Toot, Jr. receive a pension benefit from the Company. Additionally, as a former Chief Executive Officer of the Company, Mr. Toot is provided an office and administrative support.

Any Director may elect to defer the receipt of all or a specified portion of his or her cash and/or stock compensation in accordance with the provisions of The Director Deferred Compensation Plan adopted by the Board on February 4, 2000. Pursuant to the plan, cash fees can be deferred into a notional account and paid at a future date requested by the Director. The account will be adjusted through investment crediting options, which include interest earned quarterly at a rate based on the prime rate plus one percent or the total shareholder return of the Company's Common Stock, with amounts paid either in a lump sum or in installments in cash. Stock compensation can be deferred to a future date and paid either in a lump sum or installments and is payable in shares plus a cash amount representing dividend equivalents during the deferral period. Directors who are employees of the Company receive no separate fees as Directors of the Company.

Following review by the Compensation Committee of the Company's Board of Directors of the existing terms of compensation for Nonemployee Directors, on February 7, 2006, the Board of Directors approved an increase in the annual cash retainer paid to Nonemployee Directors. Effective as of January 1, 2006, Nonemployee Directors will be paid at the annual rate of \$60,000 for services as a Director. Additionally, the Board approved increases in the amounts received by the Chairperson of the Audit Committee from \$20,000 to \$30,000 and by Audit Committee members from \$10,000 to \$15,000. Further, the Board determined that the annual grant of nonqualified stock options for 3,000 shares of Common Stock to Nonemployee Directors be discontinued, and that the annual stock award for Nonemployee Directors be increased from 1,000 shares of Common Stock to 2,500 shares of Common Stock. Finally, the Board implemented a requirement that all equity grants to Nonemployee Directors, net of taxes, be held until the Director retires from or otherwise leaves the Board.

- (1) Reflects reimbursement of taxes resulting from payment of company-related spousal travel expenses and tax gross-ups related to company reimbursed financial planning services. Mrs. Dedo's 2004 figure includes \$60,178 in temporary living and relocation expenses related to her 2004 relocation.
- (2) The amounts shown in this column for 2005 include deferred dividend equivalents earned on stock options for the following individuals in amounts indicated: Mr. Griffith - \$72,111; Mr. Eisenberg - \$4,665; Mr. Arnold - \$11,119; and Mr. Timken - \$20,320. The amounts shown in this column for 2004 include deferred dividend equivalents earned on stock options for the following individuals in amounts indicated: Mr. Griffith - \$160,856; Mr. Eisenberg - \$7,624; Mr. Arnold - \$60,106; and Mr. Timken - \$21,883. Options granted by the Company prior to April 2002 provided for deferred dividend equivalents to be earned when total net income per share of the outstanding Common Stock is at least two and one-half times (or two times in the case of options granted prior to 1996) the total amount of cash dividends paid per share during the relevant calendar year. Deferred dividend equivalents are not traditional restricted stock, but deferred shares with no voting or statutory dividend rights. The deferred shares are subject to forfeiture

until issuance, which occurs four years after the date they are earned provided the grantee remains continuously employed by the Company. The number of deferred shares earned in 2005 was: Mr. Griffith – 2,257; Mr. Eisenberg – 146; Mr. Arnold – 348; and Mr. Timken - 636. The number of deferred shares earned in 2004 was: Mr. Griffith – 6,812; Mr. Eisenberg – 293; Mr. Arnold – 2,310; and Mr. Timken - 841.

The remaining amounts shown in this column represent the value of restricted shares as of the date of grant. All of these restricted shares vest at the rate of 25% per year starting on the first anniversary of the grant, except for the restricted shares awarded to Mr. Eisenberg in 2002 and Mrs. Dedo in 2004 upon hire. Mr. Eisenberg's restricted shares vest at the rate of 6,000 shares per year, on each anniversary date of hire for 2003 through 2006, with the remaining 26,000 shares vesting in 2007. Mrs. Dedo's restricted shares will vest 6,000 shares per year, on each anniversary of her date of hire for 2005 and 2006, with the remaining 13,000 shares vesting in 2007. At the end of 2005, Mr. Griffith held a total of 72,500 restricted shares with a market value of \$1,921,200; Mr. Eisenberg held a total of 53,000 restricted shares with a market value of \$1,432,400; Mr. Timken held a total of 17,500 restricted shares with a market value of \$511,000; Mr. Arnold held a total of 21,250 restricted shares with a market value of \$593,250; and Mrs. Dedo held a total of 29,000 restricted shares with a market value of \$677,490. Dividends are paid on Restricted Shares at the same rate as paid to all shareholders.

(3) The amounts shown represent cash awards under performance units covering the three-year performance cycle ending in the year shown. The performance units covering the 2003-2005 and 2002-2004 performance cycles used return on equity and sales growth as the performance measures. Performance of both measures exceeded the threshold levels set by the Compensation Committee for each performance cycle. This resulted in calculated awards of 112% of target level for the 2003-2005 cycle and 101% of target level for the 2002-2004 cycle. The Compensation Committee approved an increase in the actual award for the 2002-2004 cycle of approximately 9%. Mrs. Dedo received a prorated award for the 2003-2005 cycle and no award for the 2002-2004 cycle because she did not join the Company until March of 2004.

(4) The amounts shown in this column for 2005 have been derived as follows:

Mr. Griffith:

\$9,450 annual contribution by the Company to the Savings and Investment Pension Plan ("SIP Plan").

\$64,875 annual contribution by the Company to the Post-Tax Savings and Investment Pension Plan ("Post-Tax SIP Plan").

\$9,450 annual contribution by the Company to the SIP Plan.

\$40,950 annual contribution by the Company to the Post-Tax SIP Plan.

OPTION GRANTS IN LAST FISCAL YEAR

The following table sets forth information concerning stock option grants made to the individuals named in the Summary Compensation Table during 2005 pursuant to the Long-Term Incentive Plan.

INDIVIDUAL GRANTS					
NAME	(1) NUMBER OF SECURITIES UNDERLYING OPTIONS GRANTED	PERCENT OF TOTAL OPTIONS GRANTED TO EMPLOYEES IN FISCAL YEAR	(2) EXERCISE OR BASE PRICE (\$/SHARE)	EXPIRATION DATE	(3) GRANT DATE PRESENT VALUE (\$)
James W. Griffith	134,000	18.7%	\$25.21	January 31, 2015	1,051,900
Glenn A. Eisenberg	35,000	4.9%	\$25.21	January 31, 2015	274,750
Ward J. Timken, Jr.	27,000	3.8%	\$25.21	January 31, 2015	211,950
Michael C. Arnold	30,000	4.2%	\$25.21	January 31, 2015	235,500
Jacqueline A. Dedo	30,000	4.2%	\$25.21	January 31, 2015	235,500

(1) All of these options were granted on January 31, 2005, and are exercisable beginning 12 months after the date granted, with 25% of the options covered thereby becoming exercisable at that time and with an additional 25% becoming exercisable on each of the following three anniversaries. The agreements pertaining to these options provide that such options will become exercisable in full and will vest in the event of normal retirement, early retirement with the Company’s consent, death or disability of the option holder or a change in control of the Company, in each case as defined in such agreements.

(2) The exercise or base price per share represents the fair market value of the Company’s Common Stock as of the grant date.

(3) The rules on executive compensation disclosure issued by the Securities and Exchange Commission authorize the use of variations of the Black-Scholes option-pricing model in valuing executive stock options. The Company used this model to estimate grant date present value. In applying this model, basic assumptions were made concerning variables such as expected option term, interest rates, stock price volatility and future dividend yield, to establish an estimated option value. There is, of course, no assurance that the value actually realized by an executive will be at or near the estimated value, because the actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised.

The following assumptions were used in establishing the option value for the options granted on January 31, 2005: (a) an option term of 8 years, which is the expected life of the option based on historical experience of stock option exercises at the Company; (b) an interest rate of 3.94%, which corresponds to the yield to maturity on an 8-year U.S. Treasury strip on January 28, 2005; (c) volatility of

.504, calculated using the quarter-ending stock prices for 5 years prior to the grant date; and (d) dividend yield of 3.69%, the average amount paid annually over the 5 years prior to grant date.

AGGREGATED OPTION EXERCISES IN LAST FISCAL YEAR AND FISCAL YEAR-END OPTION VALUES

The following table sets forth information with respect to the exercise of stock options during 2005 by the individuals named in the Summary Compensation Table and the aggregate number and value of options held by such individuals as of December 31, 2005.

NAME	SHARES ACQUIRED ON EXERCISE (#)	(1) VALUE REALIZED (\$)	NUMBER OF SECURITIES UNDERLYING OPTIONS AT FISCAL YEAR-END (#)		(2) VALUE OF IN-THE-MONEY OPTIONS AT FISCAL YEAR-END (\$)	
			Exercisable	Unexercisable	Exercisable	Unexercisable
James W. Griffith	142,000	1,849,875	225,000	347,000	2,211,010	3,184,330
Glenn A. Eisenberg	28,750	253,379	0	113,750	0	1,234,875
Ward J. Timken, Jr.	10,000	134,600	64,000	65,000	771,174	595,310
Michael C. Arnold	125,650	1,232,393	16,200	91,250	39,077	937,800
Jacqueline A. Dedo	0	0	10,000	85,000	100,350	756,225

(1) The value to be realized on the exercise of options is based on the difference between the exercise price and the fair market value of the Company's Common Stock on the date of exercise.

(2) Based on the difference between the exercise price and the closing stock price on the New York Stock Exchange at year-end.

LONG-TERM INCENTIVE PLAN – AWARDS IN LAST FISCAL YEAR

The following table provides information relating to the performance unit awards that were made in 2005 to the individuals named in the Summary Compensation Table under the Long-Term Incentive Plan.

NAME	NUMBER OF SHARES, UNITS OR OTHER RIGHTS (#)	PERFORMANCE OR OTHER PERIOD UNTIL MATURATION OR PAYOUT	ESTIMATED FUTURE PAYOUTS UNDER NON-STOCK PRICE-BASED PLANS		
			THRESHOLD (\$)	TARGET (\$)	MAXIMUM (\$)
James W. Griffith	9,500	1/1/2005- 12/31/2007	712,500	950,000	1,900,000
Glenn A. Eisenberg	4,400	1/1/2005- 12/31/2007	330,000	440,000	880,000
Ward J. Timken, Jr.	3,200	1/1/2005- 12/31/2007	240,000	320,000	640,000
Michael C. Arnold	3,080	1/1/2005- 12/31/2007	231,000	308,000	616,000
Jacqueline A. Dedo	2,800	1/1/2005- 12/31/2007	210,000	280,000	560,000

Each performance unit has a cash value of \$100.00. Payment of awards is subject to the attainment of return on equity and sales growth targets. Each measure is weighted equally. For a payment to be earned, the actual performance during the performance period must exceed the threshold performance levels for both return on equity and sales growth. If the threshold performance level for either measure is not attained, then no payment will occur. If an award is payable, the minimum award is 75% of target and the maximum award is 200% of target. Payments may be made in cash or shares of Common Stock, as determined by the Compensation Committee.

EQUITY COMPENSATION PLAN INFORMATION

The table below sets forth information as of December 31, 2005, regarding the Long-Term Incentive Plan. Under the Long-Term Incentive Plan, the Company has made equity compensation available to Directors, officers, and other employees of the Company. The Long-Term Incentive Plan has been approved by shareholders.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	5,606,281 (1)	\$22.78 (2)	4,390,002 (3)/(4)
Equity compensations plans not approved by security holders:	0	0	0
Total:	5,606,281 (1)	\$22.78 (2)	4,390,002 (3)/(4)

(1) The amount set forth in column (a) includes non-qualified stock options, deferred shares, and dividend credits, but does not include restricted shares or performance units.

(2) The weighted average exercise price in column (b) includes non-qualified stock options only.

(3) The amount set forth in column (c) represents shares of Common Stock remaining available under the Long-Term Incentive Plan, which authorizes the Compensation Committee to make awards of option rights, appreciation rights, restricted shares, deferred shares, and performance units. Awards may be credited with dividend equivalents payable in the form of shares of Common Stock. In addition, under the Long-Term Incentive Plan, Nonemployee Directors are entitled to awards of restricted shares, Common Stock and option rights pursuant to a formula set forth in the Long-Term Incentive Plan. The maximum number of shares of Common Stock that may be issued under the Long-Term Incentive Plan as restricted shares and deferred shares cannot (after taking into account any forfeitures and excluding automatic awards of restricted shares to Nonemployee Directors) exceed 15% of the 16,200,000 shares of Common Stock previously authorized for issuance under the Long-Term Incentive Plan. As of December 31, 2005, 1,407,495 shares of Common Stock remained available for future issuance as restricted shares or deferred shares.

(4) The Company also maintains the Director Deferred Compensation Plan and the 1996 Deferred Compensation Plan pursuant to which Directors and employees, respectively, may defer receipt of shares of Common Stock authorized for issuance under the Long-Term Incentive Plan. The table does not include separate information about these plans because they merely provide for the deferral, rather than the issuance, of shares of Common Stock.

PENSION PLAN TABLE

During 2003, the Company moved from a defined benefit program to a core defined contribution retirement income program for all new salaried employees hired on or after January 1, 2004, as well as for current salaried employees whose age plus years of service with the Company equaled less than 50 as of December 31, 2003. For current salaried employees whose age plus years of service equaled or exceeded 50 as of December 31, 2003, a defined benefit program utilizing a formula of 0.75% per year of service times the average earnings, including base salary and cash annual incentive compensation, for the highest five non-consecutive years of the ten years preceding retirement ("Final Average Earnings") was implemented effective as of January 1, 2004. For vested service prior to January 1, 2004, the formula in effect at the time of service would be applied to such service.

Consistent with the retirement income program changes the Company implemented for its salaried employees generally, the Company also reviewed and modified its Supplemental Executive Retirement Program for Executive Officers ("SERP"), effective January 1, 2004. Supplemental retirement income benefits under the SERP will be calculated using a target benefit of 60% of Final Average Earnings, offset by any defined benefit payments provided by the Company and the aggregate earnings opportunity provided by any Company contributions under the core defined contribution program, the SIP Plan and the Post-Tax SIP Plan. The supplemental benefit will vest after five years of service as an officer of the Company, with normal retirement being considered as of age 62. Early retirement at age 55 with at least 15 years of Company service will be available, but will include a 4% reduction in benefits per year for each year of early retirement prior to reaching age 62. To receive 100% of the supplemental benefit, the officer must have at least 10 years of Company service. Benefits will be prorated for Company service of less than 10 years.

The following table shows the estimated annual retirement benefits for Mr. Griffith, based on a formula of: (1) 1.75% per year of service times Final Average Earnings, applied to Mr. Griffith's service prior to January 1, 2004; plus (2) 60% times Final Average Earnings times the ratio of Mr. Griffith's service after December 31, 2003 to his total service, without taking into account the estimated amounts to be offset against the SERP benefit. As described above, amounts shown in the table will be reduced by the earnings opportunity provided to Mr. Griffith through the Company contributions under the SIP Plan and the Post-Tax SIP Plan, ratioed in the same manner as in item (2) above. Amounts shown in the table were developed assuming that payment of benefits commenced at age 62, which is the Company's normal retirement age. Of the Executive Officers named in the Summary Compensation Table, only Mr. Griffith is covered by the formula reflected in the table because of his length of service as an officer of the Company.

REMUNERATION (3)	YEARS OF SERVICE (1) (2)			
	20	25	30	35
900,000	338,000	443,000	512,000	562,000

1,700,000	639,000	836,000	968,000	1,062,000
1,800,000	676,000	885,000	1,025,000	1,125,000
1,900,000	714,000	935,000	1,082,000	1,187,000
2,000,000	751,000	984,000	1,139,000	1,250,000
2,100,000	789,000	1,033,000	1,196,000	1,312,000
2,200,000	827,000	1,082,000	1,253,000	1,375,000

(1) Amounts in this section of the table have been developed in accordance with the provisions of the retirement plan and individual agreements based upon a straight life annuity, not under any of the various survivor options. These amounts have been determined without regard to the maximum benefit

limitations for defined benefit plans and the limitations on compensation imposed by the Internal Revenue Code of 1986, as amended. The SERP and individual agreements direct the payment out of general funds of the Company of any benefits earned that may exceed these limits.

- (2) Mr. Griffith had 21 years of credited Company service as of December 31, 2005, including 8 years of service as an officer of the Company.
- (3) Benefits are based upon Final Average Earnings. Mr. Griffith's Final Average Earnings as of December 31, 2005, are \$1,186,900.

Mr. Arnold's defined benefit calculation is based on a formula that is lower than that shown in the table as a result of the formulas in effect at the time of his vested service. Because neither Mr. Eisenberg nor Mr. Timken, Jr. had a combination of age and service with the Company that equaled or exceeded 50 as of December 31, 2003, they do not accumulate any service under a defined benefit program after December 31, 2003. Because Mrs. Dedo was not employed by the Company as of December 31, 2003, she did not accrue any service under the Company's defined benefit program. As a result, the retirement income benefit levels for Messrs. Arnold, Eisenberg and Timken and Mrs. Dedo will primarily be determined under the SERP.

The years of credited Company service as of December 31, 2005 were: 3 years for Mr. Eisenberg, 26 for Mr. Arnold, 13 for Mr. Timken, and 1 year for Mrs. Dedo. The years of credited service as an officer of the Company as of December 31, 2005 were: 3 years for Mr. Eisenberg, 6 years for Mr. Arnold, 6 years for Mr. Timken, and 1 year for Mrs. Dedo. The estimated annual benefit at age 62, based on current compensation, without taking into account the estimated amounts to be offset against the SERP benefit, is \$507,000 for Mr. Eisenberg, \$415,000 for Mr. Arnold, \$458,000 for Mr. Timken, and \$361,000 for Mrs. Dedo. As described above, these estimated amounts will be reduced by any defined benefit payments provided by the Company and the aggregate earnings opportunity provided by any Company contributions under the core defined contribution program, the SIP Plan and the Post-Tax SIP Plan.

CHANGE IN CONTROL SEVERANCE AGREEMENTS

The Company is a party to Severance Agreements with 19 of its senior executives (including the Executive Officers named in the Summary Compensation Table). Under these Agreements, when certain events occur, such as a reduction in the individual's responsibilities or termination of the individual's employment, following a change in control of the Company (as defined in the Agreements), the individual will be entitled to receive payment in an amount, grossed up for any excise taxes payable by the individual, equal to three times the individual's annual base salary and highest annual incentive compensation during the past three years plus a lump sum amount representing a supplemental pension benefit. The individual would also receive certain benefits under the SIP Plan and the Post-Tax SIP Plan. The Severance Agreements also permit the individual to resign for any reason or without a reason during the 30-day period immediately following the first anniversary of the first occurrence of a change in control and receive the severance benefits. The amounts payable under these Severance Agreements are secured by a trust arrangement.

CHANGE IN CONTROL SEVERANCE PAY PLAN

The Company has implemented a Severance Pay Plan covering approximately 147 key employees (other than those who are party to Severance Agreements). Under the Severance Pay Plan, an individual whose employment is terminated following a change in control (as defined in the Plan) may be entitled to receive payment in an amount equal to 150% to 200% of the individual's annual base salary (depending upon length of service), grossed up for any excise taxes payable by the individual, and may also have certain benefits continued for a period of six months.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors is composed of John A. Luke, Jr. (Chairman), Phillip R. Cox, Jerry J. Jasinowski, Joseph W. Ralston and Jacqueline F. Woods. Each member of the Compensation Committee meets the independence standards of the New York Stock Exchange listing requirements.

The Compensation Committee has been delegated responsibility by the Board of Directors for establishing and administering the Company's policies, programs and procedures for compensating its senior management consistent with the Company's compensation philosophy.

Compensation Philosophy

The Compensation Committee's compensation philosophy is to provide a total compensation package that:

- enables the Company to attract, retain and motivate superior quality executive management;
- reflects competitive market practices based on comparative data from a relevant peer group of companies; and
- links the financial interests of executive management with those of shareholders, through short-term and long-term incentive plans clearly tied to corporate, business unit and individual performance.

The Company, with the Compensation Committee's guidance and approval, has developed compensation programs based on this philosophy for Executive Officers, including the Chief Executive Officer and the other Executive Officers named in the Summary Compensation Table. The Company relies on its annual performance award and long-term incentive awards, tied directly to individual, business unit and corporate performance, to provide total direct compensation that is aligned to achievement of pre-established goals for the year. Total direct compensation, on average, is targeted at the market median. The Compensation Committee determines specific compensation elements for the Chief Executive Officer and considers and acts upon recommendations made by the Chief Executive Officer regarding compensation of the other Executive Officers and key employees.

In setting the compensation for the Company's Executive Officers for 2005, the Compensation Committee conducted a review of total compensation provided by companies with net sales of \$3-6 billion dollars. The companies included in this compensation review are not the same companies used in the peer group index appearing in the performance graph. The performance graph employs a peer index blending the S&P Steel Index and six bearing companies that are direct competitors of the Company's Bearing Business, five of which are foreign companies. The companies in the peer group index are not relevant for compensation comparisons, where the Company seeks to look at other industrial companies of similar size that are more representative of the employment market for executive management in which the Company competes, whether or not they are in the bearing or steel business.

The Company compared the total compensation opportunity provided to its Executive Officers to total compensation for the selected companies as reported in the 2004 Towers Perrin CDB Executive Compensation Database and the 2004 Hewitt Total Compensation Measurement Executive Compensation by Industry Database. Following completion of this analysis and development of proposed base salary ranges and target annual performance award opportunities, an external compensation consultant reviewed the information and discussed the findings with the Compensation Committee. The Committee then approved revised base salary ranges, target annual performance award opportunities and long-term incentive grants for the Company's Executive Officers, effective January 2005.

The Compensation Committee reviewed all the components of the Chief Executive Officer's and the other Executive Officers' compensation and determined that the total compensation of the Chief Executive Officer and the other Executive Officers is reasonable and consistent with the Company's compensation philosophy.

The Compensation Committee has addressed the impact of Section 162(m) of the Internal Revenue Code (the "Code") by obtaining shareholder approval of the Senior Executive Management Performance Plan and the Long-Term Incentive Plan and by allowing certain grants under the Long-Term Incentive Plan to qualify

as performance-based compensation. The Chief Executive Officer and the other Executive Officers named in the Summary Compensation Table all participated in the Senior Executive Management Performance plan for 2005. It is the Compensation Committee's general policy to consider the deductibility of compensation and benefits for Federal income tax purposes, along with other relevant factors, when determining executive compensation practices.

Base Salary

Base salary ranges for Executive Officers are determined by the Compensation Committee based on external surveys of salary practices for positions with similar levels of responsibility and in consultation with an external compensation consultant. At least annually, the Committee reviews the recommendations of the Chief Executive Officer and approves, with any modifications it deems appropriate, individual base salary amounts for Executive Officers based on individual performance and position in the salary range.

Annual Performance Award

The Company's Senior Executive Management Performance Plan and the Management Performance Plan provide the opportunity to Executive Officers and key employees to earn annual incentive compensation based on the achievement of corporate and business unit performance goals established by the Compensation Committee.

The Compensation Committee establishes the performance goals each year based upon business plans approved by management and reviewed with the Board of Directors. The primary performance measurement is Return on Invested Capital, defined as Earnings Before Interest and Taxes as a percentage of Beginning Invested Capital ("EBIT/BIC"). The Committee believes that EBIT/BIC is closely correlated with the creation of shareholder value. This measure is considered at the corporate level and for each business unit. A minimum level of performance is established each year, below which no annual performance awards are earned.

For 2005, the Compensation Committee selected the Chief Executive Officer and the other Executive Officers named in the Summary Compensation Table as the only participants in the Senior Executive Management Performance Plan, which provided a target award opportunity of 100% of base salary for the Chief Executive Officer and 60% of base salary for the other named Executive Officers, although the actual awards can be higher or lower than the target depending upon the attainment of the goals. The Management Performance Plan provided target award opportunities for 2005 for other Executive Officers that ranged from 50% to 60% of base salary, although the actual awards can be higher or lower than that range depending upon the attainment of corporate, business unit and individual goals. The Senior Executive Management Performance Plan and the Management Performance Plan both require a threshold level of EBIT/BIC performance in order for annual performance awards to be earned; the Management Performance Plan, however, gives the Compensation Committee discretion to determine performance awards for achievement in key areas.

The primary performance measure for 2005 for the annual performance award plans was corporate EBIT/BIC. In addition, specific goals were established under both plans for key measures that the Compensation Committee identified as being aligned with the creation of shareholder and customer value in 2005. For the Senior Executive Management Performance Plan, the additional measure was working capital as a percentage of sales. For the Management Performance Plan, the additional measures for business unit participants were business unit EBIT/BIC and working capital as a percentage of sales as well as customer service, while the additional measures for corporate center participants were working capital as a percentage of sales and customer service.

Results in 2005 exceeded the threshold EBIT/BIC performance necessary for annual performance awards to be earned under both annual performance plans. For the Senior Executive Management Performance Plan, achievements against the pre-established targets resulted in a calculated award of approximately 219% of base salary for Mr. Griffith and 131% of base salary for the other named Executive Officers. The Compensation Committee adjusted these awards downward by approximately 30% to better align the awards under the Senior Executive Management Performance Plan with the awards under the Management Performance Plan, resulting in a final award of approximately 152% of base salary for Mr. Griffith and between 88% and 124% of base salary for the other named Executive Officers. For the Management Performance Plan, the effects of integration, restructuring, impairment and reorganization charges and other

special items are excluded from the EBIT/BIC calculation for the purpose of determining performance awards to better measure performance related to the on-going operation of the business. In addition to corporate and business unit measures, participants in the Management Performance Plan were also measured on achievement of individual performance objectives, which can result in a positive or negative adjustment to the total performance award. The Compensation Committee approved awards for Executive Officers under the Management Performance Plan that ranged from 67% to 88% of base salary earned in 2005.

The goals for the annual performance award plans for 2006 were set by the Compensation Committee and approved by the Board at their February 2006 meeting. The performance measures for the Senior Executive Management Performance Plan for 2006 are corporate EBIT/BIC and working capital as a percentage of sales. The Compensation Committee selected the Chief Executive Officer, the other Executive Officers named in the Summary Compensation Table, and Salvatore J. Miraglia, Jr., President – Steel, as the participants in the Senior Executive Management Performance Plan for 2006. The performance measures for the Management Performance Plan for 2006 include corporate EBIT/BIC, working capital as a percentage of sales and customer service. Specific business unit measures and individual goals will also be considered under this plan. The target award opportunity for Executive Officers for 2006 will range from 50% to 100% of base salary, although the actual awards could be higher or lower than that range depending upon the attainment of corporate, business unit and individual goals.

Long-Term Incentives

The Compensation Committee administers the Long-Term Incentive Plan, which was last approved by shareholders effective April 20, 2004. The number of shares that may be issued or transferred under the Long-Term Incentive Plan may not exceed in the aggregate 16,200,000 shares of Common Stock. Awards under the Long-Term Incentive Plan can be made in the form of non-qualified stock options, incentive stock options, appreciation rights, performance shares, performance units, restricted shares and deferred shares. For 2005, a combination of non-qualified stock options, restricted shares and performance units were granted as part of the total compensation package for the Chief Executive Officer and the other Executive Officers. The use of non-qualified stock options and restricted shares enables Executive Officers to gain value if the Company's shareholders gain value. The use of performance units strengthens alignment between overall corporate performance and compensation and promotes the profitable growth of the Company.

The sizes and types of the awards under the Long-Term Incentive Plan are determined by the Compensation Committee annually. For Executive Officers in 2005, the initial target value for each participant's total grant of non-qualified stock options, restricted shares and performance units was determined by multiplying the midpoint of their salary range by a position level multiple that ranged from 1.68 to 3.09. The position level multiples were based on market competitive compensation practices derived from external survey data. Once the target award values were established, the awards were allocated among the different components using valuation methods determined by management in consultation with the Compensation Committee and an external compensation consultant. After this initial determination, the Compensation Committee reviewed, modified as appropriate and approved the long-term incentive grants based on the Committee's assessment of market competitive compensation practices, past award histories, individual performance and recommendations from the Chief Executive Officer, other than for himself.

Beginning in 2002, the Compensation Committee replaced target compensation previously delivered through deferred dividend equivalents with grants of performance units with a three-year performance period. The performance measures used for the performance units granted in 2005 are return on equity and sales growth. Each measure is weighted equally. The target award opportunity for Executive Officers for the performance units granted in 2005 ranges from 50% to 100% of base salary in effect on January 1, 2005, although the actual awards could be higher or lower than that range depending upon the attainment of the goals.

For the performance units covering the 2003-2005 performance cycle, which were granted in 2003 and also used the performance measures of return on equity and sales growth, performance of both measures exceeded the threshold performance level. Achievement of results against the pre-established targets resulted in a calculated award of 112% of target level. This resulted in cash awards for Executive Officers that ranged from 56% to 112% of base salary in effect on January 1, 2003. For additional information about performance unit awards, refer to the "Long-Term Incentive Plans – Awards in Last Fiscal Year" table.

Share ownership targets have been established for Executive Officers and other key executives and are intended to more closely align the interests of executive management with those of shareholders. These targets set a specific level of ownership ranging from one and one-half to five times salary to be achieved in most cases within five years of the date the guidelines become applicable to the Executive Officer.

Deferred Compensation

The Company maintains a Deferred Compensation Plan that allows certain employees, including the Executive Officers, to defer receipt of all or a portion of their salary, employee contributions and company match that would otherwise be directed to the Post-Tax SIP Plan and/or incentive compensation payable in cash or shares of Common Stock until a future time they have specified. Cash deferrals earn interest quarterly at a rate based on the prime rate plus one percent. The Deferred Compensation Plan is not funded by the Company and participants have an unsecured contractual commitment by the Company to pay the amounts due under the plan. When such payments are due, they will be distributed from the Company's general assets. In the event of a change in control in the Company, as defined in the plan, participants are entitled to receive deferred amounts immediately.

Chief Executive Officer Compensation

The Compensation Committee evaluates the performance of the Chief Executive Officer each year and determines his compensation on the basis of this evaluation. The Chief Executive Officer's compensation is calculated based upon the same factors set forth in the Executive Officer compensation philosophy. The principal components of the Chief Executive Officer's compensation include base salary, annual performance award and long-term incentives. The base salary range for the Chief Executive Officer is determined using survey data in the same manner as for other Executive Officers.

The Chief Executive Officer's compensation is aligned with the Company's performance through the Senior Executive Management Performance Plan and the Long-Term Incentive Plan. The methodology used to calculate the Chief Executive's compensation under each plan is similar to other Executive Officers.

Effective January 1, 2005, Mr. Griffith's base salary was increased from \$900,000 to \$950,000. In setting Mr. Griffith's compensation, the Compensation Committee considered a number of factors, including his experience and performance in relation to the performance of the Company. His target annual performance award is 100% of base salary.

Mr. Griffith's annual performance award for 2005 was measured by the achievement of pre-established goals for corporate EBIT/BIC and working capital as a percentage of sales. The company's performance for 2005 resulted in an annual performance award of \$1,445,000 in cash for Mr. Griffith.

Mr. Griffith also received a cash award under performance units covering the 2003-2005 performance cycle, which were granted in 2003 and used the performance measures of return on equity and sales growth. The Compensation Committee determined that the performance for both measures exceeded the threshold performance level. Achievement of results against the pre-established targets resulted in an award earned at 112% of target level. This resulted in a cash award for Mr. Griffith of \$896,000.

In 2005, Mr. Griffith received non-qualified stock options exercisable for 134,000 shares and 30,000 restricted shares, both of which will vest at the rate of 25% per year, and 9,500 performance units covering the performance period of January 1, 2005, through December 31, 2007. The Compensation Committee believes that Mr. Griffith's total compensation was commensurate with his experience and leadership, his performance and the performance of the Company.

*** Effective in 2003, the weighting of the peer index was revised from 70% Bearing/30% Steel to more accurately reflect the Company post Torrington acquisition.

The line graph compares the cumulative total shareholder returns over five years for The Timken Company, the S&P 500 Stock Index, and a peer index that proportionally reflects The Timken Company's two businesses. The S&P Steel Index comprises the steel portion of the peer index. This index was comprised of seven steel companies in 1996 and is now three (Allegheny Technologies, Nucor and US Steel Corp.) as industry consolidation and bankruptcy have reduced the number of companies in the index. The remaining portion of the peer index is a self constructed bearing index that consists of six companies. These six companies are Kaydon, FAG, Koyo Seiko, NSK, NTN and SKF. The last five are non-US bearing companies that are based in Germany (FAG), Japan (Koyo Seiko, NSK, NTN), and Sweden (SKF). The bearing index was favorably impacted by FAG which appreciated by 71.9% in the year 2001 primarily due to the unsolicited takeover by INA-Holding Schaeffler KG. FAG was eliminated from the bearing index in 2003 when its minority interests were acquired and its shares delisted.
