NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)  
(Dollars in millions, except per share data)

*Note 1 - Basis of Presentation*

The accompanying Consolidated Financial Statements (unaudited) for The Timken Company (the "Company") have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and notes required by the accounting principles generally accepted in the United States ("U.S. GAAP") for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) and disclosures considered necessary for a fair presentation have been included. For further information, refer to the Consolidated Financial Statements and accompanying Notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. Certain amounts recorded in 2016 consolidated financial statements and accompanying footnotes have been reclassified to conform to the current presentation.

*Note 2 - Change in Accounting Principles*

Effective January 1, 2017, the Company voluntarily changed its accounting principles for recognizing actuarial gains and losses and expected returns on plan assets for its defined benefit pension and other postretirement benefit plans, with retrospective application to prior periods. Prior to 2017, the Company amortized, as a component of pension and other postretirement expense, unrecognized actuarial gains and losses (included within accumulated other comprehensive income (loss)) over the average remaining service period of active plan participants expected to receive benefits under the plan, or average remaining life expectancy of inactive plan participants when all or almost all of individual plan participants were inactive. The Company also historically calculated the market-related value of plan assets based on a five-year market adjustment. Under the new principles, actuarial gains and losses will be immediately recognized through net periodic benefit cost in the Statement of Income, upon the annual remeasurement in the fourth quarter, or on an interim basis if specific events trigger a remeasurement. In addition, the Company has changed its accounting policy for measuring the market-related value of plan assets from a calculated amount (based on a five-year smoothing of asset returns) to fair value. The Company believes these changes are preferable as they result in an accelerated recognition of actuarial gains and losses and changes in fair value of plan assets in its Consolidated Statement of Income, which provides greater transparency and better aligns with fair value principles by fully reflecting the impact of interest rate and economic changes on the Company's pension and other postretirement benefit liabilities and assets in the Company's operating results in the year in which the gains and losses are incurred. As of January 1, 2017, the cumulative effect of the change in accounting principles resulted in a decrease of \$239 million in earnings invested in the business and a corresponding increase of \$244 million in accumulated other comprehensive loss that was partially offset by the net impact of the direct effects of these changes on inventory and deferred taxes of \$5 million.

The following tables reflect the changes to financial statement line items as a result of the change in accounting principles for the periods presented in the accompanying unaudited consolidated financial statements:

*Note 3 - Recent Accounting Pronouncements*
**New Accounting Guidance Adopted:**

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting." ASU 2016-09 simplifies various aspects of the accounting for stock-based payments. The simplifications include:

- recording all tax effects associated with stock-based compensation through the income statement, as opposed to recording certain amounts in other paid-in capital, which eliminates the requirements to calculate a "windfall pool";
- allowing entities to withhold shares to satisfy the employer's statutory tax withholding requirement up to the highest marginal tax rate applicable to employees rather than the employer's minimum statutory rate, without requiring liability classification for the award;
- modifying the requirement to estimate the number of awards that will ultimately vest by providing an accounting policy election to either estimate the number of forfeitures or recognize forfeitures as they occur;
- changing certain presentation requirements in the statement of cash flows, including removing the requirement to present excess tax benefits as an inflow from financing activities and an outflow from operating activities and requiring the cash paid to taxing authorities arising from withheld shares to be classified as a financing activity; and
- the assumed proceeds from applying the treasury stock method when computing earnings per share is amended to exclude the amount of excess tax benefits that would be recognized in additional paid-in capital.

## [Table of Contents](#)

On January 1, 2017, the Company adopted the provisions of ASU 2016-09. The presentation of the Consolidated Statement of Cash Flows for shares surrendered by employees to meet the minimum statutory withholding requirement was applied retrospectively. As a result of the adoption of ASU 2016-09, \$1.5 million was reclassified from the other accrued expenses line in the operating activities section of the Consolidated Statement of Cash Flows to the shares surrendered for taxes line in the financing activities section for the first six months of 2016.

In addition, the adoption of ASU 2016-09 resulted in the Company making an accounting policy election to change how it will recognize the number of stock awards that will ultimately vest. In the past, the Company applied a forfeiture rate to shares granted. With the adoption of ASU 2016-09, the Company will recognize forfeitures as they occur. This change resulted in the Company making a cumulative effect change to retained earnings of \$0.9 million. For additional information, refer to *Note 10 - Equity* for the disclosure of the cumulative effect change. In addition, the Company began recording the tax effects associated with stock-based compensation through the income statement on a prospective basis, which resulted in a tax benefit of \$1.8 million for the first six months of 2017. Finally, the Company adjusted dilutive shares to remove the excess tax benefits from the calculation of earnings per share on a prospective basis. The revised calculation is more dilutive, but it did not change earnings per share for prior years.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory." ASU 2015-11 requires inventory to be measured at the lower of cost and net realizable value, which is defined as the estimated selling price in the ordinary course of business less reasonably predictable costs of completion, disposal and transportation. Under existing guidance, net realizable value is one of several acceptable measures of market value that could be used to measure inventory at the lower of cost or market and, as such, the new guidance reduces the complexity in the measurement. On January 1, 2017, the Company adopted the provisions of ASU 2015-11 on a prospective basis. The adoption of ASU 2015-11 did not have a material impact on the Company's results of operations or financial condition.

### **New Accounting Guidance Issued and Not Yet Adopted:**

In May 2017, the FASB issued ASU 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." ASU 2017-09 provides clarity on which changes to the terms or conditions of share-based payment awards require entities to apply the modification accounting provisions required in Topic 718. ASU 2017-09 is effective for all entities for annual reporting periods beginning after December 15, 2017, with early adoption permitted, including adoption in any interim period for which financial statements have not yet been issued. The Company does not expect that the adoption of ASU 2017-09 will have a material impact on the Company's results of operations and financial condition.

In March 2017, the FASB issued ASU 2017-07, "Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." ASU 2017-07 impacts where the components of net benefit cost are presented within an entity's income statement. Service cost will be included in other employee compensation costs within operating income and is the only component that may be capitalized when applicable. The other components of net periodic benefit cost will be presented separately outside of operating income. ASU 2017-07 is effective for annual reporting periods beginning after December 15, 2017 and interim periods within that reporting period. Early adoption will be permitted as of the beginning of an annual reporting period for which financial statements have not been issued or made available for issuance. The Company is currently evaluating the effect that the adoption of ASU 2017-07 will have on the Company's results of operations.

In January 2017, the FASB issued ASU 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment." Prior to the issuance of the new accounting guidance, entities first assessed qualitative factors to determine whether a two-step goodwill impairment test is necessary. When entities bypass or fail the qualitative analysis, they are required to apply a two-step goodwill impairment test. Step 1 compares a reporting unit's fair value to its carrying amount to determine if there is a potential impairment. If the carrying amount of a reporting unit exceeds its fair value, Step 2 is required to be completed. Step 2 involves determining the implied fair value of goodwill and comparing it to the carrying amount of that goodwill to measure the impairment loss, if any. ASU 2017-04 eliminates Step 2 of the current goodwill impairment test. ASU 2017-04 will require that a goodwill impairment loss be measured at the amount by which a reporting unit's carrying amount exceeds its fair value, not to exceed the carrying amount of goodwill. ASU 2017-04 is effective for years beginning after December 15, 2019, with early adoption permitted, and must be applied prospectively. The Company is currently evaluating the effect that the adoption of ASU 2017-04 will have on the Company's results of operations and financial condition.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." ASU 2016-13 changes how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The new guidance will replace the current incurred loss approach with an expected loss model. The new expected credit loss impairment model will apply to most financial assets measured at amortized cost and certain other instruments, including trade and other receivables, loans, held-to-maturity debt instruments, net investments in leases, loan commitments and standby letters of credit. Upon initial recognition of the exposure, the expected credit loss model requires entities to estimate the credit losses expected over the life of an exposure (or pool of exposures). The estimate of expected credit losses should consider historical information, current information and reasonable and supportable forecasts, including estimates of prepayments. Financial instruments with similar risk characteristics should be grouped together when estimating expected credit losses. ASU 2016-13 does not prescribe a specific method to make the estimate so its application will require significant judgment. ASU 2016-13 is effective in fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The Company is currently evaluating the effect that ASU 2016-13 will have on the Company's results of operations and financial condition.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)." ASU 2016-02 was issued to increase transparency and comparability among entities by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about lease arrangements. ASU 2016-02 is effective for public companies for fiscal years and interim periods within those fiscal years, beginning after December 15, 2018. The Company is currently evaluating the effect that ASU 2016-02 will have on the Company's results of operations and financial condition.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 also requires disclosures sufficient to enable users to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments and assets recognized from the costs to obtain or fulfill a contract. On July 9, 2015, the FASB decided to delay the effective date of this new accounting guidance by one year, which will result in it being effective for annual periods beginning after December 15, 2017. Although early adoption is permitted, the Company intends to adopt the new accounting standard effective January 1, 2018.

The two permitted transition methods under the new standard are 1) the full retrospective method, in which case the standard would be applied to each prior reporting period presented, subject to allowable practical expedients and the cumulative effect of applying the standard would be recognized at the earliest period shown and 2) the modified retrospective method, in which case the cumulative effect of applying the standard would be recognized at the date of initial application accompanied by additional disclosures comparing the current period results presented under the new standard to the prior periods presented under the current revenue recognition standards. The Company plans to use the modified retrospective method.

The Company is currently assessing the impact of the new standard on its business by reviewing current accounting policies and practices to identify potential differences that would result from applying the requirements of the new standard to its revenue contracts. The assessment phase of the project has identified potential accounting differences that may arise from the application of the new standard. The Company is in the process of reviewing individual contracts and performing a deeper analysis of the impacts of the new standard. The Company made significant progress on contract reviews during the first half of 2017 and expects to finalize its evaluation of these and other potential differences that may result from applying the new standard to the Company's contracts with customers in 2017 and will provide updates on its progress in future filings.

*Note 4 - Acquisitions*

During the first six months of 2017, the Company completed two acquisitions. On May 5, 2017, the Company completed the acquisition of the assets of PT Tech, Inc. ("PT Tech"), a manufacturer of engineered clutches, brakes, hydraulic power take-off units and other torque management devices used in mining, aggregate, wood recycling and metals industries. On April 3, 2017, the Company completed the acquisition of Torsion Control Products, Inc. ("Torsion Control Products"), a manufacturer of engineered torsional couplings used in construction, agriculture and mining industries. Aggregate sales for these companies for the most recent twelve months prior to their respective acquisitions totaled approximately \$41.5 million. The total purchase price for these two acquisitions was \$63.4 million, net of cash received. Both acquisitions are subject to post-closing working capital adjustments. Based on markets and customers served, substantially all of the results for PT Tech and Torsion Control Products are reported in the Mobile Industries segment.

The following table presents the initial purchase price allocation for acquisitions in 2017:

	<b>Initial Purchase Price Allocation</b>	
<b>Assets:</b>		
Accounts receivable, net	\$	7.5
Inventories, net		11.9
Property, plant and equipment, net		4.0

During 2016, the Company completed two acquisitions. On October 31, 2016, the Company completed the acquisition of EDT Corp. ("EDT"), a manufacturer of polymer housed units and stainless steel ball bearings used primarily in the food and beverage industry. On July 8, 2016, the Company completed the acquisition of Lovejoy Inc. ("Lovejoy"), a manufacturer of premium industrial couplings and universal joints. Aggregate sales for these companies for the most recent twelve months prior to their respective acquisitions totaled approximately \$61 million. The total purchase price for these two acquisitions was \$74.4 million in cash and \$2.2 million in assumed debt. The Company acquired cash of approximately \$2.5 million as part of these acquisitions.

In January 2017, the Company paid a net purchase price adjustment of \$0.6 million in connection with the EDT acquisition, resulting in an adjustment to goodwill. During the second quarter of 2017, the Company re-evaluated the fair value of certain contingent liabilities assumed in the Lovejoy acquisition, resulting in adjustments to other current assets, goodwill, other current liabilities and other non-current liabilities. The following table presents the final purchase price allocation for both the Lovejoy and the EDT acquisitions:

	<b>Initial Purchase Price Allocation</b>	<b>Adjustment</b>	<b>Final Purchase Price Allocation</b>
<b>Assets:</b>			
Accounts receivable, net	\$ 8.4		\$ 8.4
Inventories, net	17.8		17.8

<b>Net assets acquired</b>	<b>\$ 71.9</b>	<b>\$ 0.6</b>	<b>\$ 72.5</b>

*Note 5 - Inventories*

The components of inventories at June 30, 2017 and December 31, 2016 were as follows:

	<b>June 30, 2017</b>	December 31, 2016
Manufacturing supplies	\$ 28.9	\$ 28.2
Raw materials	71.1	54.9
Work in process	214.5	182.9
Finished products	331.9	308.8
Subtotal	\$ 646.4	\$ 574.8
Allowance for obsolete and surplus inventory	(29.4)	(21.1)
Total Inventories, net	\$ 617.0	\$ 553.7

Inventories are valued at the lower of cost or market, with approximately 55% valued by the first-in, first-out ("FIFO") method and the remaining 45% valued by the last-in, first-out ("LIFO") method. The majority of the Company's domestic inventories are valued by the LIFO method and all of the Company's international (outside the United States) inventories are valued by the FIFO method.

An actual valuation of the inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must be based on management's estimates of expected year-end inventory levels and costs. Because these calculations are subject to many factors beyond management's control, annual results may differ from interim results as they are subject to the final year-end LIFO inventory valuation.

The LIFO reserves at June 30, 2017 and December 31, 2016 were \$165.3 million and \$179.5 million, respectively. The Company recognized a decrease in its LIFO reserve of \$14.2 million during the first six months of 2017, compared with a decrease in its LIFO reserve of \$5.9 million during the first six months of 2016.

*Note 6 - Property, Plant and Equipment*

The components of property, plant and equipment at June 30, 2017 and December 31, 2016 were as follows:

	<b>June 30, 2017</b>	December 31, 2016
Land and buildings	\$ 452.5	\$ 425.4
Machinery and equipment	1,846.9	1,807.6
Subtotal	\$ 2,299.4	\$ 2,233.0
Accumulated depreciation	(1,487.8)	(1,428.6)
Property, plant and equipment, net	\$ 811.6	\$ 804.4

Total depreciation expense for the six months ended June 30, 2017 and 2016 was \$48.7 million and \$46.9 million, respectively.

**Note 7 - Goodwill and Other Intangible Assets**

The changes in the carrying amount of goodwill for the six months ended June 30, 2017 were as follows:

	<b>Mobile Industries</b>	<b>Process Industries</b>	<b>Total</b>
Beginning balance	\$ 97.2	\$ 260.3	\$ 357.5
Acquisitions	15.1	(1.1)	14.0
Foreign currency translation adjustments	0.4	1.5	1.9
Ending balance	\$ 112.7	\$ 260.7	\$ 373.4

The PT Tech and Torsion Control Products acquisitions in the second quarter resulted in \$15.1 million of additional goodwill for the Mobile Industries segment. The Company paid a net purchase price adjustment of \$0.6 million in January 2017 in connection with the acquisition of EDT, which resulted in an increase to goodwill. The Company also adjusted its purchase price allocation for the Lovejoy acquisition in 2017, which resulted in a \$1.7 million reduction to goodwill. Both EDT and Lovejoy are reported in the Process Industries segment.

The following table displays intangible assets as of June 30, 2017 and December 31, 2016:

	As of June 30, 2017			As of December 31, 2016

*Note 8 - Financing Arrangements*

Short-term debt at June 30, 2017 and December 31, 2016, was as follows:

	June 30, 2017	December 31, 2016
Variable-rate Accounts Receivable Facility with an interest rate of 1.88% at June 30, 2017	\$ 22.4	\$ —
Borrowings under variable-rate lines of credit for certain of the Company's foreign subsidiaries with various banks with interest rates ranging from 0.50% to 4.79% at June 30, 2017 and 0.50% at December 31, 2016, respectively.	27.1	19.2
<b>Short-term debt</b>	<b>\$ 49.5</b>	<b>\$ 19.2</b>

The Company has a \$100 million Amended and Restated Asset Securitization Agreement ("Accounts Receivable Facility") that matures on November 30, 2018. Under the terms of the Accounts Receivable Facility, the Company sells, on an ongoing basis, certain domestic trade receivables to Timken Receivables Corporation, a wholly owned consolidated subsidiary, which, in turn, uses the trade receivables to secure borrowings that are funded through a vehicle that issues commercial paper in the short-term market. Borrowings under the Accounts Receivable Facility are limited by certain borrowing base limitations. These limitations reduced the availability of the Accounts Receivable Facility to \$87.2 million at June 30, 2017. As of June 30, 2017, there were outstanding borrowings of \$82.9 million under the Accounts Receivable Facility, which reduced the availability under this facility to \$4.3 million. The cost of this facility, which is the prevailing commercial paper rate plus program fees, is considered a financing cost and is included in interest expense in the Consolidated Statements of Income. The outstanding balance under the Accounts Receivable Facility was classified as short-term or long-term in accordance with the terms of the agreement and reflects the Company's expectations relative to the minimum borrowing base.

The lines of credit for certain of the Company's foreign subsidiaries provide for short-term borrowings up to \$243.4 million in the aggregate. Most of these lines of credit are uncommitted. At June 30, 2017, the Company's foreign subsidiaries had borrowings outstanding of \$27.1 million and bank guarantees of \$1.9 million, which reduced the aggregate availability under these facilities to \$214.4 million.

Long-term debt at June 30, 2017 and December 31, 2016 was as follows:

	June 30, 2017	December 31, 2016
Fixed-rate Medium-Term Notes, Series A, maturing at various dates through May 2028, with interest rates ranging from 6.74% to 7.76%	\$ 159.5	\$ 159.5
Fixed-rate Senior Unsecured Notes, maturing on September 1, 2024, with an interest rate of 3.875%	346.4	345.9
Variable-rate Senior Credit Facility with a weighted-average interest rate of 1.67% at June 30, 2017 and 1.50% at December 31, 2016	384.0	83.8
Variable-rate Accounts Receivable Facility with an interest rate of 1.88% at June 30, 2017 and 1.65% at December 31, 2016	60.5	48.9
Other	1.7	1.9
	<b>\$ 952.1</b>	<b>\$ 640.0</b>
Less current maturities	5.0	5.0
<b>Long-term debt</b>	<b>\$ 947.1</b>	<b>\$ 635.0</b>

The Company has a \$500 million Amended and Restated Credit Agreement ("Senior Credit Facility"), which matures on June 19, 2020. At June 30, 2017, the Company had \$384.0 million of outstanding borrowings under the Senior Credit Facility, which reduced the availability under this facility to \$116.0 million. The increased borrowings under the Company's Senior Credit Facility were primarily needed to fund the acquisition of Groeneveld Group ("Groeneveld") that closed on July 3, 2017. Refer to *Note 21 - Subsequent Events* for additional information. The Senior Credit Facility has two financial covenants: a consolidated leverage ratio and a consolidated interest coverage ratio. At June 30, 2017, the Company was in full compliance with both of these covenants under the Senior Credit Facility.

**Note 9 - Contingencies**
**Product Warranties:**

The Company provides limited warranties on certain of its products. The following is a rollforward of the warranty liability for the six months ended June 30, 2017 and the twelve months ended December 31, 2016:

	June 30, 2017	December 31, 2016
Beginning balance, January 1	\$ 6.9	\$ 5.4
Additions	1.9	2.4
Payments	(1.1)	(0.9)
Ending balance	\$ 7.7	\$ 6.9

The product warranty liability at June 30, 2017 and December 31, 2016 was included in other current liabilities on the Consolidated Balance Sheets.

Currently, the Company is evaluating claims raised by certain customers with respect to the performance of bearings sold into the wind energy sector. Accruals related to this matter are included in the table above. Management believes that the outcome of these claims will not have a material effect on the Company's consolidated financial position; however, the effect of any such outcome may be material to the results of operations of any particular period in which costs in excess of amounts provided, if any, are recognized.

**Note 10 - Equity**

The changes in the equity components for the six months ended June 30, 2017 were as follows:

Net current period comprehensive income (loss), net of income taxes and noncontrolling interest	0.2	0.8	(1.6)	(0.6)
Balance at June 30, 2016	\$ (55.1)	\$ 1.2	\$ (1.3)	\$ (55.2)

Other comprehensive (loss) income before reclassifications and income taxes includes the effect of foreign currency.

The before-tax reclassification of pension and postretirement liability adjustments was due to the amortization of prior service costs and was included in costs of products sold and selling, general and administrative ("SG&A") expenses in the Consolidated Statement of Income. The reclassification of the remaining components of accumulated other comprehensive loss was included in other (expense) income, net in the Consolidated Statement of Income.

### Note 12 - Earnings Per Share

The following table sets forth the reconciliation of the numerator and the denominator of basic earnings per share and diluted earnings per share for the three months ended June 30, 2017 and 2016, respectively:

	Three Months Ended June 30,		Six Months Ended June 30,

Diluted earnings per share	\$ 1.04	\$ 0.61	\$ 1.53	\$ 1.43

The exercise prices for certain stock options that the Company has awarded exceed the average market price of the Company's common shares. Such stock options are antidilutive and were not included in the computation of diluted earnings per share. The antidilutive stock options outstanding during the three months ended June 30, 2017 and 2016 were 465,826 and 3,440,775, respectively. During the six months ended June 30, 2017 and 2016, the antidilutive stock options outstanding were 556,683 and 3,266,844, respectively.

### Note 13 - Segment Information

The primary measurement used by management to measure the financial performance of each segment is EBIT (earnings before interest and taxes).

The following discussion explains the impairment and restructuring charges recorded for the periods presented; however, it is not intended to reflect a comprehensive discussion of all amounts in the tables above.

On September 29, 2016, the Company announced the closure of its bearing plant in Pulaski, Tennessee ("Pulaski"), which is expected to close at the end of the third quarter of 2017 and to affect approximately 120 employees. During the second quarter and first six months of 2017, the Company recognized severance and related benefit costs of \$0.4 million and \$1.1 million, respectively, related to this closure. The Company has incurred pretax costs related to this closure of \$7.1 million as of June 30, 2017, including rationalization costs recorded in cost of products sold.

On March 17, 2016, the Company announced the closure of its bearing plant in Altavista, Virginia ("Altavista"). The Company completed the closure of this manufacturing facility on March 31, 2017. During the first six months of 2016, the Company recorded impairment charges of \$2.4 million and severance and related benefit costs of \$1.5 million in connection with this closure. The Company has incurred pretax costs related to this closure of \$11.2 million as of June 30, 2017, including rationalization costs recorded in cost of products sold.

[Table of Contents](#)

During the first six months of 2017, the Company recognized \$0.8 million of severance and related benefit costs to eliminate approximately 17 positions in the aggregate. The \$0.8 million charge for the first six months of 2017 primarily related to the Mobile Industries segment. During the second quarter and first six months of 2016, the Company recognized \$1.2 million and \$7.5 million, respectively, of severance and related benefit costs to eliminate approximately 100 positions. Of the \$1.2 million charge for the second quarter of 2016, \$0.3 million related to the Mobile Industries segment and \$0.9 million related to the Process Industries segment. Of the \$7.5 million charge for the first six months of 2016, \$3.0 million related to the Mobile Industries segment and \$4.5 million related to the Process Industries segment.

**Consolidated Restructuring Accrual:**

The following is a rollforward of the consolidated restructuring accrual for the six months ended June 30, 2017 and the twelve months ended December 31, 2016:

	<b>June 30, 2017</b>	December 31, 2016
Beginning balance, January 1	\$ 10.1	\$ 11.3
Expense	2.5	17.8
Payments	(6.8)	(19.0)
Ending balance	\$ 5.8	\$ 10.1

The restructuring accruals at June 30, 2017 and December 31, 2016 were included in other current liabilities on the Consolidated Balance Sheets.

*Note 15 - Retirement Benefit Plans*

The following table sets forth the net periodic benefit cost for the Company's defined benefit pension plans. The amounts for the three months and six months ended June 30, 2017 are based on calculations prepared by the Company's actuaries and represent the Company's best estimate of each period's proportionate share of the amounts to be recorded for the year ending December 31, 2017.

	U.S. Plans		International Plans		Total	
	Three Months Ended June 30,		Three Months Ended June 30,		Three Months Ended June 30,

Net periodic benefit cost	\$ 9.5	\$ 5.9	\$ (0.9)	\$ 0.9	\$ 8.6	\$ 6.8

During the first quarter of 2017, the Company recognized actuarial losses of \$4.4 million as a result of the remeasurement of plan assets and obligations for one of the Company's U.S. defined benefit pension plans. The remeasurement was due to lump sum payments exceeding service and interest costs for this plan.

*Note 16 - Other Postretirement Benefit Plans*

The following table sets forth the net periodic benefit cost for the Company's other postretirement benefit plans. The amounts for the three and six months ended June 30, 2017 are based on calculations prepared by the Company's actuaries and represent the Company's best estimate of each period's proportionate share of the amounts to be recorded for the year ending December 31, 2017.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
	Components of net periodic benefit cost:			
Service cost	\$ 0.1	\$ 0.1	\$ 0.1	\$ 0.2
Interest cost	2.2	2.8	4.5	5.5
Expected return on plan assets	(1.4)	(1.7)	(2.8)	(3.3)
Amortization of prior service cost	(0.3)	0.3	(0.5)	0.5
Net periodic benefit cost	\$ 0.6	\$ 1.5	\$ 1.3	\$ 2.9

*Note 17 - Income Taxes*

The Company's provision for income taxes in interim periods is computed by applying the estimated annual effective tax rates to income or loss before income taxes for the period. In addition, non-recurring or discrete items, including interest on prior year tax liabilities, are recorded during the period(s) in which they occur.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Provision for income taxes	\$ (8.1)	\$ 21.5	\$ 7.4	\$ 50.6
Effective tax rate	(11.0)%	30.8%	5.8%	30.7%

For the second quarter of 2017, the Company recorded an income tax benefit of \$8.1 million (effective rate of negative 11.0%) compared with income tax expense of \$21.5 million (effective tax rate of 30.8%) for the comparable period in 2016. For the six months ended June 30, 2017, the Company recorded income tax expense of \$7.4 million (effective tax rate of 5.8%) compared with expense of \$50.6 million (effective tax rate of 30.7%) for the comparable period in 2016. The income tax expense for the second quarter and first six months of 2017 was calculated using the forecasted multi-jurisdictional annual effective tax rates to determine a blended annual effective tax rate. The effective tax rate differs from the U.S. federal statutory rate of 35% primarily due to a \$34 million reversal of accruals for uncertain tax positions (including related interest) based on the expiration of various statutes of limitation, the projected mix of earnings in international jurisdictions with relatively lower tax rates and tax benefits related to foreign tax credits, which are partially offset by losses in jurisdictions with no tax benefit due to valuation allowances and other discrete tax items.

The following table reconciles the Company's total gross unrecognized tax benefits for the six months ended June 30, 2017:

	June 30, 2017
Beginning balance, January 1	\$ 39.1
Tax positions related to the prior years:	
Additions	1.5
Reductions	(1.3)
Lapses in statutes of limitation	(26.3)
Ending Balance	\$ 13.0

Income tax expense for the second quarter and first six months of 2017 is lower than the same periods from the prior year primarily as a result of the release of accruals for uncertain tax positions, tax benefits related to foreign tax credits and earnings in certain international jurisdictions with relatively lower tax rates.

*Note 18 - Fair Value*

Fair value is defined as the price that would be expected to be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The FASB provides accounting rules that classify the inputs used to measure fair value into the following hierarchy:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 – Unobservable inputs for the asset or liability.

The following tables present the fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016:

	<b>June 30, 2017</b>			
	Total	Level 1	Level 2	Level 3
<b>Assets:</b>				
Cash and cash equivalents	\$ 429.0	\$ 425.3	\$ 3.7	\$ —
Cash and cash equivalents measured at net asset value	16.1	—	—	—
Restricted cash	2.8	2.8	—	—
Short-term investments	14.5	—	14.5	—
Short-term investments measured at net asset value	4.8	—	—	—
Foreign currency hedges	1.2	—	1.2	—
<b>Total Assets</b>	<b>\$ 468.4</b>	<b>\$ 428.1</b>	<b>\$ 19.4</b>	<b>\$ —</b>
<b>Liabilities:</b>				
Foreign currency hedges	\$ 5.7	\$ —	\$ 5.7	\$ —
<b>Total Liabilities</b>	<b>\$ 5.7</b>	<b>\$ —</b>	<b>\$ 5.7</b>	<b>\$ —</b>

	<b>December 31, 2016</b>			
	Total	Level 1	Level 2	Level 3
<b>Assets:</b>				
Cash and cash equivalents	\$ 129.6	\$ 125.0	\$ 4.6	\$ —
Cash and cash equivalents measured net asset value	19.2	—	—	—
Restricted cash	2.7	2.7	—	—
Short-term investments	9.4	—	9.4	—
Short-term investments measured at net asset value	2.3	—	—	—
Foreign currency hedges	9.9	—	9.9	—
<b>Total Assets</b>	<b>\$ 173.1</b>	<b>\$ 127.7</b>	<b>\$ 23.9</b>	<b>\$ —</b>
<b>Liabilities:</b>				
Foreign currency hedges	\$ 2.1	\$ —	\$ 2.1	\$ —
<b>Total Liabilities</b>	<b>\$ 2.1</b>	<b>\$ —</b>	<b>\$ 2.1</b>	<b>\$ —</b>

Cash and cash equivalents are highly liquid investments with maturities of three months or less when purchased and are valued at the redemption value. Short-term investments are investments with maturities between four months and one year and generally are valued at amortized cost, which approximates fair value. A portion of the cash and cash equivalents and short-term investments are valued based on net asset value. The Company uses publicly available foreign currency forward and spot rates to measure the fair value of its foreign currency forward contracts.

[Table of Contents](#)

The Company does not believe it has significant concentrations of risk associated with the counterparties to its financial instruments.

**2017**

No assets were measured at fair value on a nonrecurring basis for the six months ended June 30, 2017.

**2016**

The following table presents those assets measured at fair value on a nonrecurring basis for the six months ended June 30, 2016 using Level 3 inputs:

	Carrying Value	Fair Value Adjustment	Fair Value
<b>Long-lived assets held for sale:</b>			
Land	\$ 0.2	\$ (0.2)	\$ —
<b>Total long-lived assets held for sale</b>	<b>\$ 0.2</b>	<b>\$ (0.2)</b>	<b>\$ —</b>
<b>Long-lived assets held and used:</b>			
Altavista bearing plant	\$ 5.7	\$ (2.4)	\$ 3.3
<b>Total long-lived assets held and used</b>	<b>\$ 5.7</b>	<b>\$ (2.4)</b>	<b>\$ 3.3</b>

Assets held for sale of \$0.2 million were written down to their fair value of zero during the first quarter of 2016, resulting in an impairment charge of \$0.2 million. The fair value of these assets was based on the price that the Company expected to receive when it disposed of these assets.

On March 17, 2016, the Company announced the closure of its Altavista bearing plant. The Company completed the closure of this manufacturing facility on March 31, 2017. The Altavista bearing plant, with a carrying value of \$5.7 million, was written down to its fair value of \$3.3 million during the first quarter of 2016, resulting in an impairment charge of \$2.4 million. The fair value for the plant was based on the price that the Company expected to receive from the sale of this facility. During the second quarter of 2017, this facility was reclassified to assets held for sale and included in other current assets on the Consolidated Balance Sheet. On July 14, 2017, this facility was sold for a pretax gain of approximately \$1.6 million.

**Financial Instruments:**

The Company's financial instruments consist primarily of cash and cash equivalents, restricted cash, short-term investments, accounts receivable net, accounts payable, trade, short-term borrowings and long-term debt. Due to their short-term nature, the carrying value of cash and cash equivalents, restricted cash, short-term investments, accounts receivable net, accounts payable, trade and short-term borrowings are a reasonable estimate of their fair value. The fair value of the Company's long-term fixed-rate debt, based on quoted market prices, was \$541.7 million and \$532.2 million at June 30, 2017 and December 31, 2016, respectively. The carrying value of this debt was \$507.6 million and \$507.3 million at June 30, 2017 and December 31, 2016, respectively. The fair value of long-term fixed-rate debt was measured using Level 2 inputs.

*Note 19 - Derivative Instruments and Hedging Activities*

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are foreign currency exchange rate risk, commodity price risk and interest rate risk. Forward exchange contracts on various foreign currencies are entered into in order to manage the foreign currency exchange rate risk associated with certain of the Company's commitments denominated in foreign currencies.

The Company designates certain foreign currency forward contracts as cash flow hedges of forecasted revenues and expenses and certain interest rate hedges as fair value hedges of fixed-rate borrowings.

The Company does not purchase nor hold any derivative financial instruments for trading purposes. As of June 30, 2017 and December 31, 2016, the Company had \$338.2 million and \$282.8 million, respectively, of outstanding foreign currency forward contracts at notional value. Refer to *Note 18 - Fair Value* for the fair value disclosure of derivative financial instruments.

**Cash Flow Hedging Strategy:**

For certain derivative instruments that are designated and qualify as cash flow hedges (*i.e.*, hedging the exposure to variability in expected future cash flows that is attributable to a particular risk), the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive income and reclassified into earnings in the same line item associated with the forecasted transaction and in the same period or periods during which the hedged transaction affects earnings. The remaining gain or loss on the derivative instrument in excess of the cumulative change in the present value of future cash flows of the hedged item, if any (*i.e.*, the ineffective portion), or hedge components excluded from the assessment of effectiveness, are recognized in the Consolidated Statement of Income during the current period.

To protect against a reduction in the value of forecasted foreign currency cash flows resulting from export sales over the next year, the Company has instituted a foreign currency cash flow hedging program. The Company hedges portions of its forecasted revenue or expense denominated in foreign currencies with forward contracts. When the dollar strengthens significantly against foreign currencies, the decline in the present value of future foreign currency revenue is offset by gains in the fair value of the forward contracts designated as hedges. Conversely, when the dollar weakens, the increase in the present value of future foreign currency cash flows is offset by losses in the fair value of the forward contracts.

The length of time over which the Company hedges its exposure to the variability in future cash flows for forecasted transactions is generally 18 months or less.

**Fair Value Hedging Strategy:**

For derivative instruments that are designated and qualify as fair value hedges (*i.e.*, hedging the exposure to changes in the fair value of an asset or a liability or an identified portion thereof that is attributable to a particular risk), the gain or loss on the derivative instrument as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in the same line item associated with the hedged item (*i.e.*, in "interest expense" when the hedged item is fixed-rate debt).

**Purpose for Derivative Instruments not Designated as Hedging Instruments:**

For derivative instruments that are not designated as hedging instruments, the instruments typically are forward contracts. In general, the practice is to reduce volatility by selectively hedging transaction exposures including intercompany loans, accounts payable and accounts receivable. Intercompany loans between entities with different functional currencies typically are hedged with a forward contract at the inception of the loan with a maturity date at the maturity of the loan. The revaluation of these contracts, as well as the underlying balance sheet items, is recorded directly to the income statement so the adjustment generally offsets the revaluation of the underlying balance sheet items to protect cash payments and reduce income statement volatility.

*Note 20 - Continued Dumping and Subsidy Offset Act*

The U.S. Continued Dumping and Subsidy Offset Act ("CDSOA") provides for distribution of monies collected by U.S. Customs and Border Protection ("U.S. Customs") on entries of merchandise subject to antidumping orders that entered the United States ("U.S.") prior to October 1, 2007 to qualifying domestic producers where the domestic producers have continued to invest in their technology, equipment and people. During the second quarter and first six months of 2016, the Company recognized pretax CDSOA income, net of related expenses, of \$6.1 million and \$53.8 million, respectively.

In September 2002, the World Trade Organization ruled that CDSOA payments are not consistent with international trade rules. In February 2006, U.S. legislation was enacted that ended CDSOA distributions for imports covered by antidumping duty orders entering the U.S. after September 30, 2007. Instead, any such antidumping duties collected would remain with the U.S. Treasury.

CDSOA has been the subject of significant litigation since 2002 and U.S. Customs has withheld CDSOA distributions for certain years while litigation was ongoing. However, much of the CDSOA litigation that involves antidumping orders where Timken is a qualifying domestic producer has concluded.

Subsequently, the Company was notified by letters dated March 25, 2016 and June 24, 2016 that funds were being distributed to the Company. On April 1, 2016 and July 1, 2016, the Company received CDSOA distributions of \$48.1 million and \$6.3 million, respectively, representing funds that would have been distributed to the Company at the end of calendar years 2011 through 2015.

At June 30, 2016, the Company recorded a sundry receivable for CDSOA distributions received in July 2016. This sundry receivable was included in other current assets on the Consolidated Balance Sheet.

While some of the challenges to CDSOA have been resolved, others are still in litigation. Since there continue to be legal challenges to CDSOA, U.S. Customs has advised all affected domestic producers that it is possible that CDSOA distributions could be subject to clawback. Management of the Company believes that the likelihood of any clawback is remote.

*Note 21 - Subsequent Events*

On July 5, 2017, the Company announced that the Company's majority-owned subsidiary, Timken India Ltd. ("Timken India"), entered into a definitive agreement to acquire ABC Bearings Limited ("ABC Bearings"). Timken India is a public limited company listed on the National Stock Exchange of India Limited and BSE Limited. ABC Bearings is a manufacturer of tapered, cylindrical and spherical roller bearings and slewing rings in India. ABC Bearings will merge into Timken India upon the completion of the transaction. The transaction is subject to receipt of various approvals in India, which are expected to take at least six months to complete. ABC Bearings, located in Mumbai, India, operates primarily out of manufacturing facilities in Bharuch, Gujarat and Dehradun, Uttarakhand and had annual sales of approximately \$29 million for the twelve months ended March 31, 2017.

On July 3, 2017, the Company completed the acquisition of Groeneveld, for an agreed upon enterprise value of €250 million (approximately \$285 million) in cash, plus the net value of Groeneveld's cash acquired through a "locked box" mechanism and other items. Groeneveld is a leading provider of automatic lubrication solutions used in on- and off-highway applications, located in Gorinchem, Netherlands, with manufacturing facilities in Italy and had annual sales of approximately \$105 million for the twelve months ended May 31, 2017. Based on markets and customers served, substantially all of the results for Groeneveld will be reported in the Mobile Industries segment starting in the third quarter of 2017.

(Dollars in millions, except per share data)

### Overview

#### Introduction:

The Timken Company engineers, manufactures and markets bearings, transmissions, gearboxes, belts, chain, couplings, industrial clutches and brakes and related products and offers a variety of power system rebuild and repair services. The Company's growing product and services portfolio features many strong industrial brands, such as Timken®, Fafnir®, Philadelphia Gear®, Drives®, Lovejoy® and Interlube™. Timken applies its deep knowledge of metallurgy, friction management and mechanical power transmission across the broad spectrum of bearings and related systems to improve the reliability and efficiency of machinery and equipment all around the world. Known for its quality products and collaborative technical sales model, Timken focuses on providing value to diverse markets worldwide through both original equipment manufacturers ("OEMs") and aftermarket channels. With more than 14,000 people operating in 28 countries, Timken makes the world more productive and keeps industry in motion. The Company operates under two reportable segments: (1) Mobile Industries and (2) Process Industries. The following further describes these business segments:

- **Mobile Industries** serves OEM customers that manufacture off-highway equipment for the agricultural, mining and construction markets; on-highway vehicles including passenger cars, light trucks and medium- and heavy-duty trucks; rail cars and locomotives; outdoor power equipment; and rotorcraft and fixed-wing aircraft. Beyond service parts sold to OEMs, aftermarket sales to individual end users, equipment owners, operators and maintenance shops are handled through the Company's extensive network of authorized automotive and heavy-truck distributors.
- **Process Industries** serves OEM and end-user customers in industries that place heavy demands on the fixed operating equipment they make or use in heavy and other general industrial sectors. This includes metals, cement and aggregate production; coal and wind power generation; oil and gas extraction and refining; pulp and paper and food processing; and health and critical motion control equipment. Other applications include marine equipment, gear drives, cranes, hoists and conveyors. This segment also supports aftermarket sales and service needs through its global network of authorized industrial distributors.

Timken creates value by understanding customer needs and applying its know-how in attractive market sectors. The Company's business strengths include its channel mix and end-market diversity, serving a broad range of customers and industries across the globe. Timken collaborates with OEMs to improve equipment efficiency with its engineered products and captures subsequent equipment replacement cycles by selling through independent channels in the aftermarket. Timken focuses its international efforts and footprint in regions of the world where strong macroeconomic factors such as urbanization, infrastructure development and sustainability create demand for its products and services.

The **Timken Business Model** is the specific framework for how the Company evaluates opportunities and differentiates itself in the market.

## Timken Business Model

The **Company's Strategy** is to apply the **Timken Business Model** and leverage the Company's competitive differentiators and strengths to create customer value and drive increased growth and profitability by:

**Outgrow Our Markets.** The Company intends to expand into new and existing markets by leveraging its collective knowledge of metallurgy, friction management and mechanical power transmission to create value for Timken customers. Using a highly collaborative technical selling approach, the Company places particular emphasis on creating unique solutions for challenging and/or demanding applications. The Company intends to grow in attractive market sectors around the world, emphasizing those spaces that are highly fragmented, demand high service and value the reliability and efficiency offered by Timken products. The Company also targets those applications that offer significant aftermarket demand, thereby providing product and services revenue throughout the equipment's lifetime.

**Operate With Excellence.** Timken operates with a relentless drive for exceptional results and a passion for superior execution. The Company embraces a continuous improvement culture that is charged with increasing efficiency, lowering costs, eliminating waste, encouraging organizational agility and building greater brand equity to fuel future growth. This requires the Company's ongoing commitment to attract, retain and develop the best talent across the world.

**Deploy Capital Deployment to Drive Shareholder Value.** The Company is intently focused on providing the highest returns for shareholders through its capital allocation framework, which includes (1) investing in the core business through capital expenditures, research and development and organic growth initiatives; (2) pursuing strategic acquisitions to broaden our portfolio and capabilities, with a focus on bearings, adjacent power transmission products and related services; and (3) returning capital to shareholders through share repurchases and dividends. As part of this framework, the Company also may restructure, reposition or divest underperforming product lines or assets.

The following highlights the Company's recent significant strategic accomplishments:

- On April 3, 2017, the Company completed the acquisition of Torsion Control Products, a manufacturer of engineered torsional couplings used in the construction, agriculture and mining industries. The business, located in Rochester Hills, Michigan, had annual sales of approximately \$20 million for the twelve months ended December 31, 2016. Based on markets and customers served, substantially all of the results for Torsion Control Products are reported in the Mobile Industries segment.
- On May 5, 2017, the Company completed the acquisition of PT Tech, a manufacturer of engineered clutches, brakes, hydraulic power take-off units and other torque management devices used in mining, aggregate, wood recycling and metals industries. PT Tech, located in Sharon Center, Ohio, had annual sales of approximately \$22 million for the twelve months ended April 30, 2017. Based on markets and customers served, substantially all of the results for PT Tech are reported in the Mobile Industries segment.
- On June 13, 2017, the Company held the grand opening for its new bearing plant in Prahova, Romania, where Timken® metric tapered roller bearings are manufactured.
- On July 3, 2017, the Company completed the acquisition of Groeneveld, a leading provider of automated lubrication solutions used in on- and off-highway applications. Groeneveld, located in Gorinchem, Netherlands, with manufacturing facilities in Italy, had annual sales of approximately \$105 million for the twelve months ended May 31, 2017. Based on markets and customers served, substantially all of the results for Groeneveld will be reported in the Mobile Industries segment starting in the third quarter of 2017.
- On July 5, 2017, the Company announced that the Company's majority-owned subsidiary, Timken India, entered into a definitive agreement to acquire ABC Bearings, a manufacturer of tapered, cylindrical and spherical roller bearings and slewing rings in India. The transaction is structured as a merger of ABC Bearings into Timken India, whereby shareholders of ABC Bearings will receive shares of Timken India as consideration. The transaction is subject to receipt of various approvals in India, which are expected to take at least six months to complete. ABC Bearings, located in Mumbai, India, operates primarily out of manufacturing facilities in Bharuch, Gujarat and Dehradun, Uttarakhand and had annual sales of approximately \$29 million for the twelve months ended May 31, 2017.

The increase in net sales for the second quarter of 2017 compared with the second quarter of 2016 was primarily due to higher end-market demand and the benefit of acquisitions. The increase in net income for the second quarter of 2017 compared with the second quarter of 2016 was primarily due to lower income tax expense as a result of the net reversal of accruals for uncertain tax positions related to prior years, the impact of higher volume, the benefit of acquisitions and the favorable impact of foreign currency exchange rate changes. These factors were partially offset by unfavorable price/mix, higher material, logistics and SG&A expense and CDSOA income recognized in the second quarter of 2016 that did not reoccur in 2017.

The increase in net sales for the first six months of 2017 compared with the first six months of 2016 was primarily due to higher end-market demand and the net benefit of acquisitions. The change in net income for the first six months of 2017 compared with the first six months of 2016 was primarily due to lower income tax expense, the impact of higher volume, the benefit of acquisitions, lower restructuring charges and the favorable impact of foreign currency exchange rate changes. These factors were partially offset by pre-tax CDSOA income of \$53.8 million recognized in 2016 that did not reoccur in 2017, unfavorable price/mix, higher SG&A expense and a pension mark-to-market remeasurement charge recorded during the first quarter of 2017.

**Outlook:**

The Company expects 2017 full-year net sales to increase approximately 11% compared with 2016 driven by higher volume in the industrial and off-highway market sectors and the benefit of acquisitions, partially offset by lower volume in the rail sector. The Company's earnings are expected to be higher in 2017 compared with 2016, primarily due to the impact of higher volume, lower restructuring and pension and other postretirement benefit mark-to-market remeasurement adjustments, lower income tax expense and the benefit of acquisitions, partially offset by unfavorable price/mix and the expected absence of CDSOA income in 2017. This outlook does not account for any potential mark-to-market remeasurement adjustments in the second half of 2017.

The Company expects to generate operating cash of approximately \$325 million in 2017, a decrease from 2016 of approximately \$79 million or 20%, driven by the absence of CDSOA receipts, higher tax payments and unfavorable working capital, partially offset by higher operating income. The Company expects capital expenditures to be between 3.5% and 4% of net sales in 2017, compared with 5% of net sales in 2016.

**The Statement of Income****Sales:**

	<b>Three Months Ended June 30,</b>			
	<b>2017</b>	<b>2016</b>	<b>\$ Change</b>	<b>% Change</b>
	Net Sales	<b>\$ 750.6</b>	<b>\$ 673.6</b>	<b>\$ 77.0</b>

	Net Sales	<b>\$ 1,454.4</b>	<b>\$ 1,357.6</b>	<b>\$ 96.8</b>

Net sales increased for the second quarter of 2017 compared with the second quarter of 2016, primarily due to higher organic revenue of \$54 million and the benefit of acquisitions of \$26 million. The increase in organic sales volume was driven by growth in the off-highway market sector and industrial distribution, partially offset by lower demand in the rail market sector.

Net sales increased for the first six months of 2017 compared with the first six months of 2016, primarily due to higher organic revenue of \$60 million and the benefit of acquisitions of \$42 million, partially offset by the effect of foreign currency exchange rate changes. The increase in organic sales volume was driven by higher demand across most of the Company's market sectors, partially offset by lower demand in the rail market sector.

**Gross Profit:**

	<b>Three Months Ended June 30,</b>			
	<b>2017</b>	<b>2016</b>	<b>\$ Change</b>	<b>Change</b>
	Gross profit	<b>\$ 201.8</b>	<b>\$ 184.5</b>	<b>\$ 17.3</b>

Gross profit % to net sales	<b>26.3%</b>	<b>27.1%</b>		<b>(80) bps</b>

Gross profit increased in the second quarter of 2017 compared with the second quarter of 2016, primarily due to the impact of higher sales volume of \$19 million and the benefit of acquisitions of \$10 million. These factors were partially offset by unfavorable price/mix (at the corporate level) of \$10 million.

Gross profit increased in the first six months of 2017 compared with the first six months of 2016, primarily due to the impact of higher volume of \$22 million and the benefit of acquisitions of \$16 million. These factors were partially offset by unfavorable price/mix (at the corporate level) of \$20 million.

**Selling, General and Administrative Expenses:**

	<b>Three Months Ended June 30,</b>			
	<b>2017</b>	2016	\$ Change	Change
Selling, general and administrative expenses	\$ 123.8	\$ 108.0	\$ 15.8	14.6%
Selling, general and administrative expenses % to net sales	16.5%	16.0%	—	50 bps

	<b>Six Months Ended June 30,</b>			
	<b>2017</b>	2016	\$ Change	Change

Selling, general and administrative expenses % to net sales	16.7%	16.5%	—	20 bps

The increase in SG&A expenses in the second quarter and first six months of 2017 compared with the second quarter and first six months of 2016 was primarily due to higher incentive compensation expense and the impact of acquisitions.

**Impairment and Restructuring:**

	<b>Three Months Ended June 30,</b>			
	<b>2017</b>	2016	\$ Change	% Change
Severance and related benefit costs	\$ 0.7	\$ 1.6	\$ (0.9)	(56.3)%

Total	\$ 2.5	\$ 13.4	\$ (10.9)	(81.3)%

Impairment and restructuring charges of \$0.8 million and \$2.5 million in the second quarter and first six months of 2017, respectively, were primarily comprised of severance and related benefit costs related to initiatives to reduce headcount and right-size the Company's manufacturing footprint, including the planned closure of the Pulaski bearing plant.

Impairment and restructuring charges of \$2.9 million and \$13.4 million in the second quarter and first six months of 2016, respectively, were primarily comprised of severance and related benefit costs of \$1.6 million and \$9.3 million, respectively, related to initiatives to reduce headcount and right-size the Company's manufacturing footprint, including the planned closure of the Altavista bearing plant. In addition, the Company also recognized impairment charges of \$2.4 million associated with the planned closure of the Altavista bearing plant.

**Interest Income and (Expense):**

Other income (expense), net	6.2	(1.7)	7.9	(464.7)%
Total other income	\$ 6.2	\$ 52.1	\$ (45.9)	(88.1)%

CDSOA income in the second quarter and first six months of 2016 represents income recorded in connection with funds awarded to the Company from monies collected by U.S. Customs from antidumping cases. Refer to *Note 20 - Continued Dumping and Subsidy Offset Act* to the Consolidated Financial Statements for further discussion.

The increase in other income (expense), net in the second quarter and first six months of 2017 was primarily due to lower foreign currency exchange losses and the gain on the sale of a manufacturing facility in Benoni, South Africa during the second quarter of 2017.

**Income Tax Expense:**

	<b>Three Months Ended June 30,</b>			
	<b>2017</b>	<b>2016</b>	<b>\$ Change</b>	<b>Change</b>
Income tax expense	\$ (8.1)	\$ 21.5	\$ (29.6)	(137.7)%

Income tax expense	\$ 7.4	\$ 50.6	\$ (43.2)	(85.4)%
Effective tax rate	5.8%	30.7%	—	NM

The effective tax rate for the three months ended June 30, 2017 is 11.0%, mainly driven by the reversal of \$34 million of accruals for uncertain tax positions (including related interest) based on the expiration of various statutes of limitation, partially offset by other discrete tax items of \$4 million.

The effective tax rate for the six months ended June 30, 2017 decreased compared with the same period in 2016 primarily as a result of the reversal of accruals of \$34 million for uncertain tax positions (including related interest) and a decrease of \$13 million in tax at the U.S. statutory rate as a result of lower year-to-date pretax earnings, partially offset by other discrete tax items of \$4 million.

Refer to *Note 17 - Income Taxes* to the Notes to the Consolidated Financial Statements for more information on the computation of the income tax expense in interim periods.

## Business Segments

The Company's reportable segments are business units that serve different industry sectors. While the segments often operate using shared infrastructure, each reportable segment is managed to address specific customer needs in these diverse market sectors. The primary measurement used by management to measure the financial performance of each segment is EBIT. Refer to *Note 13 - Segment Information* in the Notes to the Consolidated Financial Statements for the reconciliation of EBIT by segment to consolidated income before income taxes.

The presentation of segment results below includes a reconciliation of the changes in net sales for each segment reported in accordance with U.S. GAAP to net sales adjusted to remove the effects of acquisitions completed in 2016 and foreign currency exchange rate changes. The effects of acquisitions and foreign currency exchange rate changes on net sales are removed to allow investors and the Company to meaningfully evaluate the percentage change in net sales on a comparable basis from period to period.

The following items highlight the Company's acquisitions completed in 2016 and the first six months of 2017.

- The Company acquired Torsion Control Products and PT Tech during the second quarter of 2017. Based on markets and customers served, substantially all of the results for both businesses are reported in the Mobile Industries segment.
- The Company acquired EDT during the fourth quarter of 2016. Based on markets and customers served, substantially all of the results for EDT are reported in the Process Industries segment.
- The Company acquired Lovejoy during the third quarter of 2016. Based on markets and customers served, results for Lovejoy are primarily reported in the Process Industries segment.

### Mobile Industries Segment:

Currency	(0.8)	—	(0.8)	NM
Net sales, excluding the impact of acquisitions and currency	\$ 780.2	\$ 751.0	\$ 29.2	3.9%

The Mobile Industries segment's net sales, excluding the effects of acquisitions and foreign currency exchange rate changes, increased \$30.4 million or 8.3% in the second quarter of 2017 compared with the second quarter of 2016, reflecting organic growth in the off-highway, aerospace and heavy truck market sectors, partially offset by lower demand in the rail market sector. EBIT decreased by \$3.0 million or 8.0% in the second quarter of 2017 compared with the second quarter of 2016, primarily due to unfavorable material and logistics costs of \$9 million, higher SG&A expense of \$6 million and unfavorable price/mix, partially offset by the impact of higher volume of \$10 million and the benefit of acquisitions.

The Mobile Industries segment's net sales, excluding the effects of acquisitions and foreign currency exchange rate changes, increased \$29.2 million or 3.9% in the first six months of 2017 compared with the first six months of 2016, reflecting organic growth in the off-highway and heavy truck market sectors, partially offset by decreased demand in the rail market sector. EBIT decreased by \$4.2 million or 6.1% in the first six months of 2017 compared with the first six months of 2016 primarily due to higher material and operating costs of \$10 million, unfavorable price/mix of \$7 million and higher SG&A expense of \$6 million, partially offset by higher volume of \$11 million, the impact of foreign currency exchange rate changes of \$4 million and the benefit of acquisitions.

Full-year sales for the Mobile Industries segment are expected to be up 11% to 12% in 2017 compared with 2016. This reflects improved demand in the off-highway and heavy truck market sectors and the benefit of acquisitions, partially offset by continued weakness in the rail sector. EBIT for the Mobile Industries segment is expected to increase in 2017 compared with 2016 primarily due to lower expected pension and other postretirement mark-to-market remeasurement adjustments and lower restructuring charges. Excluding these items, EBIT is expected to increase in 2017 compared with 2016, as the impact of higher volume and the impact of acquisitions, mostly offset by unfavorable price/mix and higher operating costs. This outlook does not account for any potential mark-to-market remeasurement adjustments in the fourth quarter of 2017.

**Process Industries Segment:**

	Three Months Ended June 30,			
	2017	2016	\$ Change	Change

Currency	(4.2)	—	(4.2)	NM
Net sales, excluding the impact of acquisitions and currency	\$ 637.1	\$ 606.6	\$ 30.5	5.0%

The Process Industries segment's net sales, excluding the effects of acquisitions and foreign currency exchange rate changes, increased \$23.7 million or 7.8% in the second quarter of 2017 compared with the same period in 2016. The increase was primarily driven by organic growth in industrial distribution and heavy industries market sector. EBIT increased \$12.3 million or 25.7% in the second quarter of 2017 compared with the second quarter of 2016 primarily due to the impact of higher volume of \$12 million, improved manufacturing performance of \$8 million and the benefit of acquisitions, partially offset by unfavorable price/mix of \$10 million and higher SG&A expenses.

The Process Industries segment's net sales, excluding the effects of acquisitions and foreign currency exchange rate changes, increased \$30.5 million or 5.0% in the first six months of 2017 compared with the first six months of 2016. The increase was primarily driven by organic growth in industrial distribution. EBIT increased \$21.5 million or 26.3% in the first six months of 2017 compared with the first six months of 2016 primarily due to the impact of higher volume of \$16 million, improved manufacturing performance of \$15 million, the benefit of acquisitions of \$4 million and lower restructuring charges, partially offset by unfavorable price/mix of \$18 million.

Full-year sales for the Process Industries segment are expected to be up approximately 10% to 11% in 2017 compared with 2016. This reflects expected growth across most end market sectors and the benefit of acquisitions. EBIT for the Process Industries segment is expected to increase in 2017 compared with 2016 primarily due to the impact of higher volume, the benefit of acquisitions, lower expected pension and other postretirement mark-to-market remeasurement adjustments and lower restructuring charges. This outlook does not account for any potential mark-to-market remeasurement adjustments in the fourth quarter of 2017.

**The Balance Sheet**

The following discussion is a comparison of the Consolidated Balance Sheets at June 30, 2017 and December 31, 2016.

**Current Assets:**

	June 30, 2017	December 31, 2016	\$ Change	% Change
Cash and cash equivalents	\$ 445.1	\$ 148.8	\$ 296.3	199.1%
Restricted cash	2.8	2.7	0.1	3.7%
Accounts receivable, net	501.7	438.0	63.7	14.5%
Inventories, net	617.0	553.7	63.3	11.4%
Deferred charges and prepaid expenses	37.1	20.3	16.8	82.8%
Other current assets	55.8	48.4	7.4	15.3%
<b>Total current assets</b>	<b>\$ 1,659.5</b>	<b>\$ 1,211.9</b>	<b>\$ 447.6</b>	<b>36.9%</b>

The increase in cash and cash equivalents is primarily driven by increased borrowings in anticipation of the closing of the Groeneveld acquisition on July 3, 2017. Refer to the "Cash Flows" section for additional discussion of the change in cash and cash equivalents.

Accounts receivable, net increased primarily due to higher sales in June 2017 compared to December 2016 and the impact of foreign currency exchange rate changes. Inventories, net increased due to the impact of foreign currency exchange rate changes, the acquisition of Torsion Control Products and PT Tech and higher seasonal demand. Deferred charges and prepaid expenses at June 30, 2017 included a prepayment of U.S. income taxes for 2017.

**Property, Plant and Equipment, Net:**

	June 30, 2017	December 31, 2016	\$ Change	% Change
Property, plant and equipment	\$ 2,299.4	\$ 2,233.0	\$ 66.4	3.0%
Accumulated depreciation	(1,487.8)	(1,428.6)	(59.2)	4.1%
<b>Property, plant and equipment, net</b>	<b>\$ 811.6</b>	<b>\$ 804.4</b>	<b>\$ 7.2</b>	<b>0.9%</b>

The increase in property, plant and equipment, net in the first six months of 2017 was primarily due to capital expenditures of \$36 million and the impact of foreign currency exchange rate changes of \$20 million, partially offset by current-year depreciation of \$49 million.

**Other Assets:**

	June 30, 2017	December 31, 2016	\$ Change	% Change
Goodwill	\$ 373.4	\$ 357.5	\$ 15.9	4.4 %
Non-current pension assets	31.1	32.1	(1.0)	(3.1)%
Other intangible assets	288.3	271.0	17.3	6.4 %
Deferred income taxes	46.4	51.4	(5.0)	(9.7)%
Other non-current assets	28.2	34.9	(6.7)	(19.2)%
<b>Total other assets</b>	<b>\$ 767.4</b>	<b>\$ 746.9</b>	<b>\$ 20.5</b>	<b>2.7 %</b>

The increase in goodwill was primarily due to \$15 million of additional goodwill from the acquisitions of Torsion Control Products and PT Tech during the second quarter of 2017. The increase in other intangible assets was primarily due to \$29 million from the current-year acquisitions and current-year expenditures for software of \$4 million, partially offset by current-year amortization of \$18 million.

**Current Liabilities:**

	June 30, 2017	December 31, 2016	\$ Change	% Change
Short-term debt	\$ 49.5	\$ 19.2	\$ 30.3	157.8 %
Current portion of long-term debt	5.0	5.0	—	— %
Accounts payable	233.4	176.2	57.2	32.5 %
Salaries, wages and benefits	93.4	85.9	7.5	8.7 %
Income taxes payable	6.7	16.9	(10.2)	(60.4)%
Other current liabilities	149.9	149.5	0.4	0.3 %
<b>Total current liabilities</b>	<b>\$ 537.9</b>	<b>\$ 452.7</b>	<b>\$ 85.2</b>	<b>18.8 %</b>

The increase in short-term debt was primarily due to borrowings of \$22 million under the Company's Accounts Receivable Facility being classified as short term as of June 30, 2017 in accordance with the terms of the agreement governing this facility and the Company's expectations relative to the minimum borrowing base, as well as higher borrowings of \$8 million under foreign lines of credit.

The increase in accounts payable was primarily due to increased purchasing activity, as well as higher days outstanding driven by the Company's initiative to extend payment terms with its suppliers. The decrease in income taxes was primarily due to the Company being in a prepaid position with respect to U.S. income taxes at June 30, 2017 as reflected on the balance sheet; at December 31, 2016, the Company had a current income tax payable balance that included \$13.7 million payable for U.S. income taxes.

**Non-Current Liabilities:**

	June 30, 2017	December 31, 2016	\$ Change	% Change
Long-term debt	\$ 947.1	\$ 635.0	\$ 312.1	49.1 %
Accrued pension cost	158.8	154.7	4.1	2.7 %
Accrued postretirement benefits cost	127.7	131.5	(3.8)	(2.9)%
Deferred income taxes	3.0	3.9	(0.9)	(23.1)%
Other non-current liabilities	44.4	74.5	(30.1)	(40.4)%
<b>Total non-current liabilities</b>	<b>\$ 1,281.0</b>	<b>\$ 999.6</b>	<b>\$ 281.4</b>	<b>28.2 %</b>

The increase in long-term debt was primarily due to additional borrowing of \$300.7 million under the Company's Senior Credit Facility and additional borrowings of \$11.6 million classified as long term under the Accounts Receivable Facility. The increased borrowings under the Company's Senior Credit Facility were primarily needed to fund the Groeneveld acquisition that closed on July 3, 2017. Refer to *Note 21 - Subsequent Events* for additional information.

The decrease in other non-current liabilities was primarily driven by the reversal of accruals for uncertain tax positions of \$34 million due to the expiration of statutes of limitation in various jurisdictions.

**Shareholders' Equity:**

	<b>June 30, 2017</b>	December 31, 2016	\$ Change	% Change
Common stock	<b>\$ 946.5</b>	\$ 960.0	\$ (13.5)	(1.4)%
Earnings invested in the business	<b>1,367.7</b>	1,289.3	78.4	6.1 %
Accumulated other comprehensive loss	<b>(50.1)</b>	(77.9)	27.8	(35.7)%
Treasury shares	<b>(877.1)</b>	(891.7)	14.6	(1.6)%
Noncontrolling interest	<b>32.6</b>	31.2	1.4	4.5 %
Total shareholders' equity	<b>\$ 1,419.6</b>	\$ 1,310.9	\$ 108.7	8.3 %

Earnings invested in the business in the first six months of 2017 increased by net income attributable to the Company of \$120.7 million, partially offset by dividends declared of \$41.4 million.

The decrease in accumulated other comprehensive loss was primarily due to foreign currency adjustments of \$29.9 million. The foreign currency translation adjustments were due to the weakening of the U.S. dollar relative to other foreign currencies, including the Romanian Leu, Indian Rupee, the Chinese Yuan and Polish Zloty. See *"Other Matters - Foreign Currency"* for further discussion regarding the impact of foreign currency translation.

The decrease in treasury shares was primarily due to \$42 million of net shares issued for stock compensation plans during the first six months of 2017, partially offset by the Company's purchase of 598,000 of its common shares for \$27 million.

**Cash Flows**

	<b>Six Months Ended June 30,</b>		
	<b>2017</b>	2016	<b>\$ Change</b>
Net cash provided by operating activities	\$ 114.5	\$ 204.1	\$ (89.6)
Net cash used in investing activities	(108.9)	(51.0)	(57.9)
Net cash provided by (used in) financing activities	279.9	(130.0)	409.9
Effect of exchange rate changes on cash	10.8	3.3	7.5
Increase in cash and cash equivalents	\$ 296.3	\$ 26.4	\$ 269.9

**Operating Activities:**

Operating activities provided net cash of \$114.5 million in the first six months of 2017, compared with net cash of \$204.1 million provided in the first six months of 2016. The decrease was primarily due to the unfavorable impact of income taxes of \$78.3 million and a net unfavorable change in working capital items of \$31.7 million, partially offset by higher net income of \$6.6 million. Refer to the tables below for additional detail of the impact of each line on net cash provided by operating activities.

The following table displays the impact of working capital items on cash during the first six months of 2017 and 2016, respectively:

	<b>Six Months Ended June 30,</b>		
	<b>2017</b>	2016	<b>\$ Change</b>
<b>Cash Provided (Used):</b>			
Accounts receivable	\$ (46.0)	\$ 4.7	\$ (50.7)
Inventories	(38.1)	(8.2)	(29.9)
Trade accounts payable	50.5	12.5	38.0
Other accrued expenses	2.0	(8.9)	10.9
Cash used by working capital items	\$ (31.6)	\$ 0.1	\$ (31.7)

The following table displays the impact of income taxes on cash during the first six months of 2017 and 2016, respectively:

	<b>Six Months Ended June 30,</b>		
	<b>2017</b>	2016	<b>\$ Change</b>
Accrued income tax expense	\$ 7.4	\$ 50.6	\$ (43.2)
Income tax payments	(54.4)	(16.8)	(37.6)
Other miscellaneous items	(2.0)	(4.5)	2.5
Change in income taxes	\$ (49.0)	\$ 29.3	\$ (78.3)

**Investing Activities:**

Net cash used in investing activities of \$108.9 million in the first six months of 2017 increased \$57.9 million from the same period in 2016 primarily due to a \$63.4 million increase in cash used for acquisitions and a \$7 million increase in investments in short-term marketable securities, net, partially offset by a \$10.5 million decrease in cash used for capital expenditures.

**Financing Activities:**

Net cash provided by financing activities was \$279.9 million in the first six months of 2017 compared with net cash of \$130.0 million used in financing activities in the first six months of 2016. The increase was primarily due to an increase in net borrowings of \$356.5 million, primarily needed to fund the Groeneveld acquisition, which closed on July 3, 2017. Refer to the Consolidated Statement of Cash Flows for additional information.

**Liquidity and Capital Resources:**

Reconciliation of total debt to net debt and the ratio of net debt to capital:

**Net Debt:**

	June 30, 2017	December 31, 2016
Short-term debt	\$ 49.5	\$ 19.2
Current portion of long-term debt	5.0	5.0
Long-term debt	947.1	635.0
Total debt	\$ 1,001.6	\$ 659.2
Less: Cash and cash equivalents	445.1	148.8
Restricted cash	2.8	2.7
Net debt	\$ 553.7	\$ 507.7

**Ratio of Net Debt to Capital:**

	June 30, 2017	December 31, 2016
Net debt	\$ 553.7	\$ 507.7
Shareholders' equity	1,419.6	1,310.9
Net debt plus shareholders' equity (capital)	\$ 1,973.3	\$ 1,818.6
Ratio of net debt to capital	28.1%	27.9%

The Company presents net debt because it believes net debt is more representative of the Company's financial position than total debt due to the amount of cash and cash equivalents held by the Company.

At June 30, 2017, approximately \$434.7 million of the Company's \$445.1 million of cash and cash equivalents resided in jurisdictions outside the U.S. The increase in cash residing in jurisdictions outside of the U.S. was primarily needed to fund the Groeneveld acquisition that closed on July 3, 2017. It is the Company's practice to use available cash in the U.S. to pay down its Senior Credit Facility or Accounts Receivable Facility in order to minimize total interest expense. As a result, the majority of the Company's cash on hand was outside the U.S. as of June 30, 2017. Repatriation of these funds to the U.S. could be subject to domestic and foreign taxes and some portion may be subject to governmental restrictions. Part of the Company's strategy is to grow in attractive market sectors, many of which are outside the U.S. This strategy includes making investments in facilities, equipment and potential new acquisitions. The Company plans to fund these investments, as well as meet working capital requirements, with cash and cash equivalents and unused lines of credit within the geographic location of these investments where feasible.

The Company has a \$100 million Accounts Receivable Facility, which matures on November 30, 2018. The Accounts Receivable Facility is subject to certain borrowing base limitations and is secured by certain domestic accounts receivable of the Company. Certain borrowing base limitations reduced the availability of the Accounts Receivable Facility to \$87.2 million at June 30, 2017. As of June 30, 2017, the Company had \$82.9 million in outstanding borrowings, which reduced the availability under the facility to \$4.3 million. The interest rate on the Accounts Receivable Facility is variable and was 1.88% as of June 30, 2017, which reflects the prevailing commercial paper rate plus facility fees.

The Company has a \$500 million Senior Credit Facility, which matures on June 19, 2020. At December 31, 2016, the Senior Credit Facility had outstanding borrowings of \$384.0 million, which reduced the availability to \$116.0 million. The Senior Credit Facility has two financial covenants: a consolidated leverage ratio and a consolidated interest coverage ratio. At June 30, 2017, the Company was in full compliance with the covenants under the Senior Credit Facility and its other debt agreements. The maximum consolidated leverage ratio permitted under the Senior Credit Facility is 3.5 to 1.0 (3.75 to 1.0 for a limited period up to four quarters following an acquisition with a purchase price of \$200 million or greater). As of June 30, 2017, the Company's consolidated leverage ratio was 2.42 to 1.0. The minimum consolidated interest coverage ratio permitted under the Senior Credit Facility is 3.5 to 1.0. As of June 30, 2017, the Company's consolidated interest coverage ratio was 13.19 to 1.0.

## [Table of Contents](#)

The interest rate under the Senior Credit Facility is variable and a blended U.S. Dollar and Euro rate with a spread based on the Company's debt rating. This rate was 1.67% as of June 30, 2017. In addition, the Company pays a facility fee based on the consolidated leverage ratio multiplied by the aggregate commitments of all of the lenders under the Senior Credit Facility.

Other sources of liquidity include short-term lines of credit for certain of the Company's foreign subsidiaries, which provide for borrowings of up to approximately \$243.4 million in the aggregate. Most of these credit lines are uncommitted. At June 30, 2017, the Company had borrowings outstanding of \$27.1 million and bank guarantees of \$1.9 million, which reduced the aggregate availability under these facilities to \$214.4 million.

The Company expects that any cash requirements in excess of cash on hand and cash generated from operating activities will be met by the committed funds available under its Accounts Receivable Facility and the Senior Credit Facility. Management believes it has sufficient liquidity to meet its obligations through at least the term of the Senior Credit Facility.

The Company expects to remain in compliance with its debt covenants. However, the Company may need to limit its borrowings under the Senior Credit Facility or other facilities in order to remain in compliance. As of June 30, 2017, the Company could have borrowed the full amounts available under the Senior Credit Facility and Accounts Receivable Facility and still would have been in compliance with its debt covenants.

The Company expects cash from operations of approximately \$325 million in 2017, a decrease from 2016 of approximately \$79 million or 20%, driven by the absence of CDSOA receipts, higher tax payments and unfavorable working capital, partially offset by higher operating income. The Company expects capital expenditures to be between 3.5% and 4% of net sales in 2017, compared with 5% of net sales in 2016.

### **Financing Obligations and Other Commitments:**

During the first six months of 2017, the Company made contributions of \$6.6 million to its global defined benefit pension plans. The Company currently expects to make contributions to its global defined benefit pension plans in 2017 totaling approximately \$10 million. Returns for the Company's U.S. defined benefit plan pension assets for the first six months of 2017 were approximately 7.4%. Returns for the Company's global defined benefit pension plan assets in 2016 were 8.5%, which was above the weighted average expected rate of return of 5.78% predominantly due to both strong returns in equity and fixed-income markets. The Company expects to record pension expense of approximately \$15 million in 2017, including the mark-to-market remeasurement losses of approximately \$4 million recorded during the first quarter, compared with pension expense of \$73.4 million in 2016, which included approximately \$60 million of mark-to-market remeasurement losses. The amount for 2017 does not include actuarial gains and losses that will be recognized immediately through earnings as a result of the remeasurement of pension plan assets and obligations in the fourth quarter of 2017.

The Company does not have any off-balance sheet arrangements with unconsolidated entities or other persons.

### **Critical Accounting Policies and Estimates:**

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. The Company reviews its critical accounting policies throughout the year. The Company has concluded that there have been no significant changes to its critical accounting policies or estimates, as described in its Annual Report on Form 10-K for the year ended December 31, 2016, during the six months ended June 30, 2017 other than the change in accounting principles described below.

### **Benefit Plans:**

Effective January 1, 2017, the Company voluntarily changed its accounting principles for recognizing actuarial gains and losses and expected returns on plan assets for its defined benefit pension and other postretirement benefit plans, with retrospective application to prior periods. Prior to 2017, the Company amortized, as a component of pension and other postretirement expense, unrecognized actuarial gains and losses (included within Accumulated other comprehensive income (loss)) over the average remaining service period of active plan participants expected to receive benefits under the plan, or average remaining life expectancy of inactive plan participants when all or almost all of individual plan participants were inactive. The Company also historically calculated the market-related value of plan assets based on a five-year market adjustment. Under the new principles, actuarial gains and losses will be immediately recognized through net periodic benefit cost in the Statement of Income, upon the annual remeasurement in the fourth quarter, or on an interim basis if specific events trigger a remeasurement. In addition, the Company has changed its accounting policy for measuring the market-related value of plan assets from a calculated amount (based on a five-year smoothing of asset returns) to fair value. The Company believes these changes are preferable as they result in an accelerated recognition of actuarial gains and losses and changes in fair value of plan assets in its Consolidated Statement of Income, which provides greater transparency and better aligns with fair value principles by fully reflecting the impact of interest rate and economic changes on the Company's pension and other postretirement benefit liabilities and assets in the Company's operating results in the year in which the gains and losses are incurred.

### **Other Matters**

#### **Foreign Currency:**

Assets and liabilities of subsidiaries are translated at the rate of exchange in effect on the balance sheet date; income and expenses are translated at the average rates of exchange prevailing each month during the quarter. Related translation adjustments are reflected as a separate component of accumulated other comprehensive income (loss). Foreign currency gains and losses resulting from transactions are included in the Consolidated Statement of Income.

For the six months ended June 30, 2017, the Company recorded a positive foreign currency translation adjustment of \$29.9 million that increased shareholders' equity, compared with a positive foreign currency translation adjustment of \$0.2 million that increased shareholders' equity for the six months ended June 30, 2016. The foreign currency translation adjustments for the six months ended June 30, 2017 were positively impacted by the weakening of the U.S. dollar relative to other foreign currencies, including the Romanian Leu, Indian Rupee, the Chinese Yuan and Polish Zloty.

Foreign currency exchange losses resulting from transactions included in the Company's operating results for the second quarter of 2017 were \$1.0 million, compared with a loss of \$1.8 million during the second quarter of 2016. Foreign currency exchange losses resulting from transactions included in the Company's operating results for the first six months of 2017 were \$1.4 million, compared with a loss of \$3.1 million during the first six months of 2016.

## **Forward-Looking Statements**

Certain statements set forth in this Form 10-Q and in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 that are not historical in nature (including the Company's forecasts, beliefs and expectations) are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. In particular, Management's Discussion and Analysis contains numerous forward-looking statements. Forward-looking statements generally will be accompanied by words such as "anticipate," "believe," "could," "estimate," "expect," "forecast," "outlook," "intend," "may," "possible," "potential," "predict," "project" or other similar words, phrases or expressions. You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this Form 10-Q. The Company cautions readers that actual results may differ materially from those expressed or implied in forward-looking statements made by or on behalf of the Company due to a variety of factors, such as:

- deterioration in world economic conditions, or in economic conditions in any of the geographic regions in which the Company conducts business, including additional adverse effects from the global economic slowdown, terrorism or hostilities. This includes: political risks associated with the potential instability of governments and legal systems in countries in which the Company or its customers conduct business and changes in currency valuations;
- the effects of fluctuations in customer demand on sales, product mix and prices in the industries in which the Company operates. This includes: the ability of the Company to respond to rapid changes in customer demand, the effects of customer bankruptcies or liquidations, the impact of changes in industrial business cycles and whether conditions of fair trade continue in the U.S. markets;
- competitive factors, including changes in market penetration, increasing price competition by existing or new foreign and domestic competitors, the introduction of new products by existing and new competitors and new technology that may impact the way the Company's products are sold or distributed;
- changes in operating costs. This includes: the effect of changes in the Company's manufacturing processes; changes in costs associated with varying levels of operations and manufacturing capacity; availability and cost of raw materials and energy; changes in the expected costs associated with product warranty claims; changes resulting from inventory management, cost reduction initiatives and different levels of customer demands; the effects of unplanned plant shutdowns; and changes in the cost of labor and benefits;
- the success of the Company's operating plans, announced programs, initiatives and capital investments; the ability to complete previously announced transactions; the ability to integrate acquired companies; and the ability of acquired companies to achieve satisfactory operating results, including results being accretive to earnings;
- the Company's ability to maintain appropriate relations with unions that represent Company associates in certain locations in order to avoid disruptions of business;
- unanticipated litigation, claims, or assessments. This includes: claims or problems related to intellectual property, product liability or warranty, environmental issues and taxes;
- changes in worldwide financial markets, including availability of financing and interest rates, which affect the Company's cost of funds and/or ability to raise capital, as well as customer demand and the ability of customers to obtain financing to purchase the Company's products or equipment that contain the Company's products;
- the impact on the Company's pension obligations due to changes in interest rates, investment performance and other tactics designed to reduce risk;
- retention of CDSOA distributions; and
- those items identified under Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Additional risks relating to the Company's business, the industries in which the Company operates, or the Company's common shares may be described from time to time in the Company's filings with the Securities and Exchange Commission. All of these risk factors are difficult to predict, are subject to material uncertainties that may affect actual results and may be beyond the Company's control.

Readers are cautioned that it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results and that the above list should not be considered to be a complete list. Except as required by the federal securities laws, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Refer to information appearing under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of this Form 10-Q. Furthermore, a discussion of market risk exposures is included in Part II, Item 7A. Quantitative and Qualitative Disclosure about Market Risk, of the Company’s Annual Report on Form 10-K for the year ended December 31, 2016. There have been no material changes in reported market risk since the inclusion of this discussion in the Company’s Annual Report on Form 10-K referenced above.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **(a) Disclosure Controls and Procedures**

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company’s management, including the Company’s principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)). Based upon that evaluation, the principal executive officer and principal financial officer concluded that the Company’s disclosure controls and procedures were effective as of the end of the period covered by this report.

#### **(b) Changes in Internal Control Over Financial Reporting**

During the Company’s most recent fiscal quarter, there have been no changes in the Company’s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

**PART II. OTHER INFORMATION**

## Item 1. Legal Proceedings

The Company is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position or results of operations.

## Item 1A. Risk Factors

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, included a detailed discussion of our risk factors. There have been no material changes to the risk factors included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

**Issuer Purchases of Common Shares**

The following table provides information about purchases by the Company of its common shares during the quarter ended June 30, 2017.

Period	Total number of shares purchased <sup>(1)</sup>	Average price paid per share <sup>(2)</sup>	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs <sup>(3)</sup>
4/1/17 - 4/30/17	101,526	\$ 44.53	95,000	9,750,000
5/1/17 - 5/31/17	95,985	48.01	78,000	9,672,000
6/1/17 - 6/30/17	240,376	45.65	240,000	9,432,000
Total	437,887	\$ 45.91	413,000	9,432,000

(1) Of the shares purchased in April, May and June, 6,526, 17,985 and 376, respectively, represent common shares of the Company that were owned and tendered by employees to exercise stock options and to satisfy withholding obligations in connection with the exercise of stock options and vesting of restricted shares.

(2) For shares tendered in connection with the vesting of restricted shares, the average price paid per share is an average calculated using the daily high and low of the Company's common shares as quoted on the New York Stock Exchange at the time of vesting. For shares tendered in connection with the exercise of stock options, the price paid is the real-time trading stock price at the time the options are exercised.

(3) On February 6, 2017, the Board of Directors of the Company approved a share purchase plan pursuant to which the Company may purchase up to ten million of its common shares in the aggregate.
